<p><i>Workforce Goal</i></p> <p>1. Seek appropriations for sec. 748 Title VII dental primary care cluster of \$33.928 million¹, with directed funding of not less than \$10 million going to pediatric dentistry in recognition of the demand for training grants and the increased need for pediatric dentists to treat newly insured children under the ACA.²</p>	<p><i>Access to Care Goal</i></p> <p>1. Support corrections to Affordable Care Act (ACA) to:</p> <ul style="list-style-type: none"> a) Make pediatric oral health coverage mandatory. b) Include dental premium cost under calculation of tax subsidy for low income families. c) Exempt preventive dental services from deductibles in embedded plans and SADPs. d) Extend CHIP funding for at least two years. 	<p><i>Access to Care Goal</i></p> <p>1. As the Affordable Care Act (ACA) provision defines pediatric oral health as an essential health benefit (EHB), ensure that implementing regulations require robust coverage consistent with the AAPD Policy on a Model Dental Benefits for Infants, Children, Adolescents, and Individuals with Special Health Care Needs. Coordinate joint response/comments on proposed regulations with ADA and keep key members of Congress informed.</p> <p>Support mandatory purchase (vs. offer) of an appropriately structured embedded or stand-alone dental plan for children inside exchanges, and encourage states to adopt such a requirement as several have already done (Kentucky, Nevada, Washington state).</p> <p>Sustain regulatory inclusion of general anesthesia coverage state mandates as EHB beyond 2014 and 2015. Monitor types of pediatric oral health insurance offered in state health insurance exchanges as compared with AAPD model benefits.</p>	<p><i>Workforce and Access to Care Goal</i></p> <p>1. Promote states' adoption of expanded duties for dental assistants as recommended in the AAPD's <i>Policy on Workforce Issues and Delivery of Oral Health Care Services in a Dental Home</i>, and assist state chapters dealing with dental therapist and other mid-level proposals.³</p>

¹ Congressional appropriators have included the Feingold-Collins State Oral Health grants under this total amount. The AAPD, ADA, and ADEA supported \$10 million each for pediatric dentistry and general dentistry in FY 2015, and obtained \$10 million for pediatric dentistry and \$9 million for general dentistry, and \$33.928 million overall.

² **IF Congress considers tax reform legislation** explore possible inclusion of tax exemption of faculty loan repayment amount, or via Title VII reauthorization explore authority for school or residency program to provide additional amounts to cover tax liability as done in NIH loan repayment programs.

³ The AAPD Pediatric Oral Health Research and Policy Center maintains an EFDA "tool kit" on its web page.
