Preventive Orthodontics, the common place parts of your everyday practice, is the focus of this program. The overall health of your patients is the goal of your pediatric practice. Preventive Orthodontics is a necessary part of that goal. What parts of the developing malocclusion can and should be corrected in order to prevent abnormal growth and alleviate abnormal positions of the teeth?

Here is your chance to come face to face with practicing Pediatric specialists who incorporate Orthodontics into their daily practices. Join the discussions with your questions and comments. Spend the cocktail party, lunch and breaks with the speakers.

SWSPD, in conjunction with Rocky Mountain Orthodontics (RMO), brings you this program as part of our continuing education commitment.

Registration includes the Thursday evening Welcome Reception, Friday lunch and 9 hours of Continuing Education on Friday and Saturday.

SCHEDULE OF EVENTS

Thursday, September 6

6:00pm - 8:00pm Welcome Reception

Friday, September 7

8:00am - 4:00pm..... Registration Open

9:00am - Noon Continuing Education

Noon - 1:00pm..... Lunch

1:00pm - 4:00pm Continuing Education

Saturday, September 8

8:30am - Noon Registration Open

9:00am - Noon Continuing Education

COME TO DENVER – THE MILE HIGH CITY!

Where a thriving arts and cultural scene, 300 days of sunshine, and the Rocky Mountain backdrop combine for the world’s most spectacular playground. Denver is as laid-back as it is sophisticated. It’s a place where engineers rub elbows with rock climbers at local brewpubs, at art festivals, or while strolling along downtown’s 16th Street pedestrian mall. Free shuttles give visitors quick access to world-class art and culture, wine bars, restaurants, and nighttime entertainment and music in Larimer Square or historic LoDo. Upscale shopping awaits at Cherry Creek, while Denver’s seven professional sports teams showcase this city’s active spirit. Denver’s 850 miles of paved biking and walking paths, the largest system of its kind in the country, connect visitors to unique attractions, parks and diverse neighborhoods. One trip is all it takes to fall in love with this great city. www.VISITDENVER.org

HOTEL ACCOMMODATIONS

Located just minutes from downtown Denver and ranked in the top 25 among Embassy Suites hotels in customer service scores for the third year in a row, the Embassy Suites Denver International Airport pairs deluxe accommodations with an unbeatable location.

Preventive Orthodontics

3 CEUs

Francis L. Miranda, DDS

What developing problems affect the growth of the mandible and thereby affect the growth and development of the face? This presentation will provide you with the reasoning behind the problems and some solutions that improve the growth of the face. The Pediatric Dentist is the first to see these problems and the best to follow them and advise the parents about the corrective solutions that are available. The normal growth and development of the dentition and the face should be a major goal in every Pediatric Dentist's practice!

Dr. Miranda holds both DDS and MS degrees from Baylor University and graduated from University of Missouri Kansas City with a specialty in pediatric dentistry. In 1980, he founded POGO Seminars to help pediatric and general dentists manage developing occlusions in growing children. Dr. Miranda taught both pediatric dentistry and orthodontics at Baylor University until 1990. He has lectured internationally and continues his educational focus with dentists in Early Orthodontic Therapy and limited Complete Orthodontic Therapy. In addition, Dr. Miranda has conducted post graduate research in physiology and holds a PhD in Education.

Oh No! Ectopic Eruption...What Do I Do Now?

2 CEUs

Timothy R. Fagan, DDS

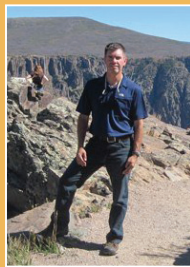

If you're treating children, you're likely to see patients with ectopic eruption as this condition has been reported to occur in up to 10% of the population. Any permanent tooth in the mouth can erupt ectopically. Do you feel confident in your abilities to correct these conditions or to prevent them in the first place? This presentation will examine the diagnosis and treatment of ectopic eruptions through the use of easy, simplified interceptive techniques that can be used every day in your office to prevent and/or correct ectopic eruptions of all permanent teeth.

Dr. Fagan received his Doctor of Dental Surgery degree from the College of Dentistry at the University of Oklahoma Health Sciences Center and his pediatric dental training at the University of Iowa. He is a media spokesperson for the American Academy of Pediatric Dentistry and has also served as chairman of the Academy's Practice Administration Committee and the Council on Continuing Education, and is a former Trustee on the Academy's Board of Trustees. Dr. Fagan is a past President of the SouthWestern Society of Pediatric Dentistry and the Oklahoma Association of Pediatric Dentists. He is a Clinical Associate Professor in the Department of Pediatric Dentistry at the University of Oklahoma Dental School. Dr. Fagan has written several published articles on pediatric dentistry and, throughout the year, he gives dental presentations to other dentists and to the general public.

Airway Evaluation: Why, When, How?

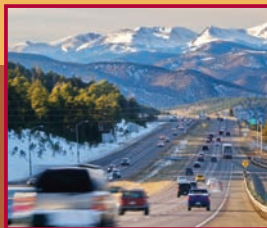

1 CEU

Jeffrey D. Rhodes, DDS

Dr. Rhodes will discuss **why** and how to assess airways in growing children. He will touch on **when** optimal time is to do an evaluation. You will also learn **how** to go about doing an effective airway evaluation and screening.

Dr. Rhodes is a 1984 graduate of Austin College in Sherman, Texas. He graduated from Baylor College of Dentistry in 1988, and completed specialty training in Pediatric Dentistry in 1990. His special interests lie in growth and development. He has completed fellowships at Scottish Rite Hospital for Crippled Children, Children's Medical Center of Dallas and teaching fellowship at Baylor College of Dentistry. He is a member of Arkansas Society of Pediatric Dentistry, American Academy of Pediatric Dentistry, Arkansas State Dental Association, American Dental Association, SouthWestern Society of Pediatric Dentistry, American Academy of Cosmetic Dentistry, and Diplomate of American Board of Pediatric Dentistry. He is a Past President of the SouthWestern Society of Pediatric Dentistry.

SATURDAY, SEPTEMBER 8

Early Treatment Mechanics Options Using Fixed/Removable System 3 CEUs

Tim A. Auger, DDS

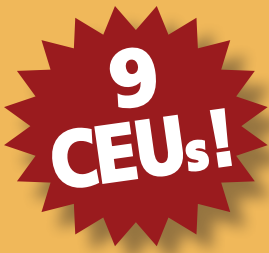

Orthodontists and Pediatric dentist who treat young patients are faced with unique treatment challenges. Dr. Tim Auger has been using the Wilson Bi-Directional Distalization Arch and Modular Lower Lingual holding arch as adjuncts to early interceptive orthodontic treatment for 20 years. His presentation will cover the following:

1. 3 Dimensional space gain in the maxilla of the mixed dentition patient.
2. Molar distalization in conjunction with Rapid Palatal expansion for a complete phase 1 result.
3. Simple, effective and efficient lower arch space maintenance with the Wilson modular lingual holding arch.
4. Case examples of interceptive Class 1, Class 2 and Class 3 treatment modalities. Specifics to be outlined are;
 - a. What cases to treat early and why?
 - b. Specific phase 1 goals for simplified patient management.
 - c.. Cases in which to avoid early treatment.
5. Step by step guidance to help incorporate these simple appliances into any orthodontic or pediatric dental practice.

This will be a very interactive lecture. Questions about specific cases, application of appliances, fees and time involved with treating young patients are encouraged.

Dr. Auger has been providing orthodontic care for residents of the Monterey Peninsula and Salinas area since 1993. He graduated with honors as class valedictorian from Boston University School of Dentistry in 1991 and continued his education at the University of California Los Angeles by earning his orthodontic certificate in 1993. Dr. Auger is Board Certified by the American Board of Orthodontics. He is a member of several professional organizations and has lectured extensively to a variety of study groups and university resident programs.
