

Core Curriculum Reading List

Compiled by the AAPD Council on Postdoctoral Education for programs, and updated biannually, the Core Curriculum Reading List is a reference list of more than 200 articles. The intent of this document is to provide postdoctoral program educators with an educational resource. The intended audience is the postdoctoral dental resident or interested general dentist.

The American Academy of Pediatric Dentistry's [Reference Manual](#) is an important document that can guide curriculum development. The Reference Manual contains policies, best practice guidelines, and general pediatric dentistry resources, and it is reviewed and updated annually.

Contents

Diagnosis, Oral Pathology, Oral Radiology, and Oral Medicine	2
Prevention and Health Promotion	4
Growth and Development/Orthodontics	6
Special Health Care Needs.....	9
Behavior Guidance (Pharmacological)	13
Dental Caries Diagnosis, Non-Restorative Caries Management and Restorative Treatment.....	15
Pulp Therapy	17
Oral Facial Injury, Emergency Care and Oral Surgery.....	19
Behavior Guidance (Nonpharmacological)	21
