**NEW  
CLEARER  
FORMULA!**

n-Hexane  
**FREE**

Whether you prefer the palette, or love the glove,  
Vella has you covered.

## One great varnish. Now two great delivery systems!

Now you can apply clear formula Vella 5% sodium fluoride varnish with NuFluor from your favorite delivery system! Stick with the sturdy Vella stick, or switch to the popular back-of-the-glove technique with our new Vellamini. Either way, your patients enjoy improved esthetics, a smooth application and the protection they need. Vella looks better, feels better in the mouth and tastes great, improving patient compliance. Plus, Vella has great fluoride release and uptake at two hours.<sup>1</sup> And Vella provides relief from sensitivity. To order gluten-free Vella, call your favorite dental dealer, or test drive both by visiting [preventech.com](http://preventech.com) for FREE SAMPLES.

## What are pediatric dentists saying?

"Sprig University was one of the best CE courses I have ever taken. It was a perfect mix of lecture and hands-on training. This course isn't just for beginners with these crowns. I have done between 50–100 and learned some great tips to improve my speed and quality. Thank you, Sprig, for your attention to detail and focus on outstanding customer service!"

## Welcome to AAPD 2018

Aloha! Aloha is a Hawaiian word typically associated with greeting another person with hello or good-bye. For the Hawaiians, it is “The Aloha Spirit” – a unique way of living, the ultimate lifestyle, and the secret to a full and happy life.

Aloha is not only a word, it is a way of living, an attitude and expresses guidelines to help us in our lives – kindness, patience, compassion, respect, togetherness, affection, empathy, peace, & love.

Aloha means we are able to recognize and appreciate the uniqueness and differences each of us bring into this world. Honor and respect your family, friends, and all the people who pass through your life. Aloha does not pass judgement on others for it always trusts, always hopes and always protects.

It’s a pleasure to invite you, your office staff and family to AAPD 2018 in Honolulu! The scientific program takes place at the Hawaii Convention Center. The Hilton Hawaiian Village is located on Waikiki Beach and only a 10 minute walk to the center. Additional hotels are conveniently located nearby. Come celebrate the 71st Annual Session of the American Academy of Pediatric Dentistry!

Aloha Fest! More of what you’ve come to expect at the AAPD Welcome Reception, which is the hallmark event in pediatric dentistry. Enjoy the Bishop Museum by exploring the Science Adventure Center, learn more about the Hawaiian and Pacific Culture in the Hall, and make sure have a good spot to see all the fun entertainment. High-energy bands, games, ukuleles playing and amazing food ensure it will be one of the best events. I’d like to thank Sunstar Americas, Inc. for their continue support of the event.

The scientific program promises to deliver the cutting-edge topics you’ve come to expect at the Annual Session. The Preconference Course on Thursday, is taught by some of the best AAPD has to offer: Drs. Ann Bynum, Rob Delarosa and Bobby Elliott. The opening keynote embraces the Hawaiian culture with a better understanding of Aloha and the Spirit of Hawaii.

The celebration at the Presidents’ Farewell Dinner promises to be an amazing celebration of our O’hana (family) at the Waialae Country Club! Be sure to make plans to stay for this wonderful event overlooking the private beaches of Honolulu.

I would like to personally thank our local arrangements chair, Lynn Fujimoto. She always works to make us feel the Aloha spirit and this will be a spectacular event which will be noticed by everyone.

Use the word aloha with a pure heart and good intention. Be guided by aloha and make good choices. Live aloha wherever you are!

**Dr. Lynn Fujimoto**  
*AAPD 2018 Local Arrangements Chair*

## Welcome and Aloha to the AAPD 2018 in Honolulu, Hawaii

In Hawaii it is common to use the word Aloha in greetings, farewells and in expressions of love. Aloha is composed of two words in the Hawaiian language - Alo meaning sharing and Ha which means life energy or breath.

The AAPD 2018 will embrace our aloha and will “joyfully share life.” The host hotel, the Hilton Hawaiian Village, is located on Waikiki Beach, a mere ten minute walk from the Hawaii Convention Center where the meeting will take place. The welcome reception will be held on the grounds of the Bernice Pauahi Bishop Museum. The museum was established in 1889 and preserves the natural and cultural history of Hawaii and the Pacific. Enjoy Hawaiian Fest, learn to make a flower lei, visit the Planetarium or enjoy the world’s largest collection of Polynesian cultural artifacts and natural history specimens.

Waikiki is bustling with activity with many restaurants including the new International Market Place as well as shopping at the Ala Moana Shopping Center. Visit the Arizona Memorial, Pearl Harbor, Battleship USS Missouri, as well as enjoy snorkeling at Hanauma Bay, hiking Diamond Head or just relaxing on the beach.

On behalf of the American Academy of Pediatric Dentistry and the Local Arrangements Committee, we are honored to be your hosts for an exciting and educational 71st Annual Session. The Scientific Program Committee has worked diligently to develop a program that features many well-known and enthusiastic speakers. There will be a strong educational balance encompassing caries research, dental materials, pathology and orthodontics to practice management, staff enrichment and technology. We guarantee that there is something for everyone.

We wanted to thank John Rutkauskas and the AAPD staff of Tonya Almond, Kristi Casale, Colleen Bingle and Caroline Price for helping plan great venues throughout the city for all of the events. If you have never been to Hawaii, you and your family are in for a real adventure in paradise. Mark your calendars now and plan on joining us at the Annual Session in Honolulu, May 24 – 27, 2018.

Mahalo nui loa,

**Lynn Fujimoto**

# General Information

## Audio Recordings and Online CE

Make the most of your educational experience at AAPD 2018 and purchase access to the audio content. Remind yourself of the important takeaways you heard or hear a compelling course you may have missed. This multimedia offering is an excellent training tool and informational resource. You can purchase access with or without earning CE credits. The audio and PowerPoint presentations will be synced!

### Audio Recordings\*

The Audio Recordings will give you online access to the slides synchronized to audio from the scientific sessions, MiniClinics, and String of Pearls. With so many great sessions being offered at AAPD 2018, you won't want to miss a single second, and now you don't have to.

*\* You will not earn CE with the Audio Recordings package. To earn CE, please purchase the AAPD 2018 Online CE package.*

To order, see page 41 of the registration form.

### AAPD 2018 Online CE

AAPD is offering CE for those courses at Annual Session you cannot attend. With such great topics and speakers lined up, it's difficult to choose which session to attend. In the Education Passport, you will have the opportunity to purchase and earn CE for all sessions recorded in Hawaii. Purchase the entire Annual Session package now or individual sessions will be available for purchase after the meeting.

Content for both offerings will be available for five years after the event.

## ADA

AAPD conferences are ADA compliant. We strive to take the appropriate steps required to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated differently. Individuals requiring special assistance must make the appropriate notation on the registration form and/or contact the AAPD Meeting Services Department. All requests for special accommodations under ADA must be made allowing enough time for evaluation and appropriate action by AAPD.

## Attire

The Scientific Program is casual. We recommend you have a sweater or light jacket available in case you find the meeting rooms too cold. The Welcome Reception is casual; come dressed in your festival attire including your sandals; no heels as they will sink into the lawn! The Presidents' Farewell Dinner is resort chic.

## Handouts

Everyone registered by May 1, 2018, will receive an email with a link to the handouts in advance allowing you to print the handouts you want to bring with you or browse before you arrive. Handouts provided by the speakers are also included in the comprehensive conference app.

## Conference App

Attention all smart phone users and tablet owners! The AAPD continues to provide a comprehensive conference app for AAPD 2018 to keep you engaged before, during and after the meeting. The event app includes a complete list of sessions, speakers, exhibitors, local attractions, facility maps and much more!

*Sponsored by NuSmile*

The conference app, Online Itinerary Planner, interactive floor plan and the ePoster Gallery are linked. Create an account, login and mark your favorite exhibitors or sessions...when you login to the app, it will all be there! Once AAPD receives the speaker handouts, they will all be included in the app and the Online Itinerary Planner providing you a comprehensive educational tool both online and in your hands.

Download our dedicated Poster App which includes full color posters as well as the abstract allowing you to sort by topic, track, day and presenter. Check out this opportunity to see this important research!

*ePoster Gallery and Posters Sponsored by My Kid's Dentist*

## Continuing Education Credit

**ADA C.E.R.P.**® | Continuing Education Recognition Program

The AAPD is an ADA CERP Recognized Provider. Credit is awarded on an hour-for-hour basis. Attendees should claim only those hours of credit that they actually spent in the educational activity.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

## Photography/Video Waiver

AAPD plans to take photographs and/or video at AAPD 2018 and reproduce them in AAPD educational, news or promotional material, whether in print, electronic or other media, including the AAPD website. By participating AAPD 2018, you grant AAPD the right to use your name, image and biography for such purposes. All postings become the property of AAPD. Postings may be displayed, distributed or used by AAPD for any purpose.

### Travel Information

#### Airline Discounts

AAPD offers discounted meeting fares on various major air carriers for AAPD meeting attendees. To receive these discounts, please contact Direct Travel, AAPD's official travel provider at 800.840.0908. As always, to obtain the lowest available fares, early booking is recommended.

#### Getting There

The Hilton Hawaiian Village is just 20 minutes from Honolulu International Airport (HNL). Shuttle and car service are available from the airport to the hotel. Uber and Lyft are also available from the airport and around Honolulu.

Visit the Tours and Activities on the AAPD website to book car service.

### Exhibit Hall

Maximize your time at the Annual Session and visit the exhibit hall to explore products and services geared toward you and your pediatric dental office. Visit the combined AAPD Exhibit Booth which includes the AAPD Store to pick up a copy of the new Coding Manual, the Pediatric Dentistry Handbook or a souvenir from this year's Annual Session! Spend some time in the Healthy Smiles, Healthy Children Donor Lounge to learn more about the Access to Care Grants or simply to make a donation or increase your current pledge to the Foundation.

The exhibit hall schedule is created to maximize your time with the exhibitors while still providing time to attend the education courses you want and enjoy the beach! The Hospitality Area is located on the exhibit hall floor offering a continental breakfast, refreshment breaks each morning and afternoon. Lunch is available for purchase on Friday and Saturday.

Visit the AAPD Store to see what prizes you are eligible to win in the exhibitor drawing. Be sure to check out the My Kid's Dentist Research Poster Competition and the Smiles for Life Network Tech Bar!

#### Exhibit Hall Schedule

##### FRIDAY, MAY 25

9 AM – 4 PM

10:20 – 10:40 AM BREAK

11:30 AM – 2 PM

Lunch for purchase

2:20 – 2:40 PM BREAK

##### SATURDAY, MAY 26

8 AM – 3 PM

8:20 – 8:40 AM BREAK

11:30 AM – 2 PM

Lunch for purchase

2 – 2:15 PM BREAK

##### SUNDAY, MAY 27

8 AM – 10:30AM

8:20 – 8:40 AM BREAK

# HONOLULU ✈️

#### Raffle in Exhibit Hall

Feeling lucky? The AAPD is hosting a raffle for all attendees! Take the raffle card found near registration and visit with 20 exhibitors and get a stamp. Once you've filled out your raffle card, bring it to the AAPD Store in Booth 625. The raffle takes place in the AAPD Store on Sunday, May 27, at 9 a.m.

#### My Kid's Dentist Research Poster Competition

##### FRIDAY MAY 25 AND SATURDAY MAY 26

My Kid's Dentist Research Competition is available in the exhibit hall. Different topics are presented each hour. Stop by to meet the authors and discuss their presentations with them! A poster OnDemand Station is available in the area for attendees to view the eposters at any time. Be sure to download the Poster App to access all the posters.

*Sponsored by My Kid's Dentist*

#### The Tech Bar

##### Gadgets & BYOD

Learning can be fun, so come to play!

Cool gadgets will be on hand including virtual reality goggles, smart watches, infrared keyboards, and more. The future of tech is here—and so much of it is wearable. Come check it out.

A number of educational sessions will be offered throughout the meeting which are geared toward helping you learn how to use social media to build your practice, online reputation management, branding and much more!

BYOD! Often your biggest obstacles are with the devices you already own, so bring your own device for in-hands tips and solutions you didn't know were possible. Ask the toughest tech or app questions, and walk away much more efficient.

*Sponsored by Smiles for Life*

## Career Fair Saturday May 26

1:30 – 3:30 PM

The Career Fair is a great opportunity for a new pediatric dentist seeking their first practice position or the more experienced dentist who is looking for a change to network with hiring organizations.

For more information on exhibiting or to download the Career Fair form visit <http://annual.aapd.org/networking/>. The cost for AAPD Members is \$150; recruitment companies may exhibit at the price of \$500.

## Sponsorship Opportunities

Wondering what kind of exposure your company can get at the AAPD Annual Session? Look no further. There are various opportunities still available to target your company's goals and meet your budget!

For more information on becoming a sponsor for the AAPD, please visit <http://annual.aapd.org/sponsorship/> or contact Vice President for Meetings and Continuing Education Tonya Almond at [talmond@aapd.org](mailto:talmond@aapd.org) or (312) 337-2169.

## How Would You Like To Have The Best, The Happiest, And The Most Competent Pediatric Dental Assistants *Who Actually Make You Money?*

The Pediatric Dental Assistants Association is proud to accept memberships from qualifying pediatric dental offices. Take a look at everything that is included in your exclusive membership:

- The Annual PDAA Conference\* - an excellent place to keep your PDAs connected and excited to be part of bigger community of high-performing PDAs.
- Pediatric dental assistant video training modules in key practice areas with optional Q&A assessments.
- Email support from Dr. Haugseth personally.
- 24/7 access to videos and training modules to allow learning during downtime at the office, at the house, or even from a tablet.
- Opportunity to request new training modules to be developed.
- A bi-monthly newsletter filled with fun, helpful news and information.

*...and so much more!*

As a PDAA member, your practice receives terrific benefits. Your dental assistants gain valuable knowledge and training. Their increased abilities help grow and develop your practice. And overall communication and patient care are greatly improved. Learning new skills and sharpening the skills of your existing assistants is the key to keeping your practice happy, productive, **and** profitable.

\*additional fee

**Maximize your PDA's value to your practice!**

**Call (770) 823-3534 or visit [www.thepdaa.org](http://www.thepdaa.org) to join today!**

The following code letters appear after those programs and presentations that the Scientific Program Committee suggests would be of special interest to that particular group of attendees. However, sessions are open to all participants.

**PD:** Pediatric Dentist  
**DT:** Dental Team  
**S:** Spouse

## Joint Academic Day

Thursday, May 24

8 AM – 3 PM

(Invitation Only)

Join your colleagues for the annual Joint Academic Day. The morning session will focus on the recent success of the HRSA Faculty Loan Repayment Program. Dr. Heber Simmons will discuss the Academy's advocacy efforts for obtaining HRSA funding and the importance of training programs to apply for various grants. Dr. Amr Moursi will moderate a panel discussion about preparing a successful grant application and its administration. Additionally, Dr. Joel Berg will present a talk on how to teach the clinically appropriate use of silver diamine fluoride.

In the afternoon, the Society of Predoctoral Program Directors and the Society of Postdoctoral Program Directors will hold discussions on issues relevant to predoctoral and postdoctoral topics of interest.

For further information, please contact Educational Affairs Manager Scott Dalhouse at (312) 337-2169 or [sdalhouse@aapd.org](mailto:sdalhouse@aapd.org).

## Preconference Course

### Full Steam Ahead or Off the Tracks? Which Way is Your Engine Headed in Both Your Life and Dental Practice?

Thursday, May 24

8:30 AM – 2:30 PM

*Ann M. Bynum, D.D.S., Robert L. Delarosa, D.D.S., Robert D. Elliott, D.M.D., M.S.,*

Are you struggling with work/life balance? Is work just work? Do you feel your train is going too fast or headed in the wrong direction? Then join us in the paradise of Hawaii to experience transformation while learning how to love what you do, have fun at work and home, and most importantly, enjoy the ride!!

Upon completion of this course, you will be able to:

- Identify your passion statement and discuss what makes your heart sing
- Identify situations or obstacles that interfere with moving forward toward your passion and foundation purpose goal.
- Increase efficiency at work and happiness at home by balancing your work and life habits.

**Dr. Ann Bynum** is originally from Ocala, Fla. She did her undergraduate training at Florida State University. She then attended dental school at the University of Iowa, where she met her husband, Matt Bynum. She did two further years of training in pediatric dentistry at the University of Texas Health Science Center in San Antonio, Texas. Bynum moved to Greenville, S.C., in 1997 and opened her practice in Simpsonville. She has three

PD  
DT

BYNUM

DELAROSA

ELLIOTT

children of her own—all boys—and understands and appreciates the arts of pediatric dentistry and parenting. Bynum is a diplomate of the ABPD, a member of the SSPD, the AAPD, and the ADA. She has lectured and written numerous articles on customer service, marketing, leadership and teamwork over the years. She enjoys spending time with her husband and their three boys, Matthew, Luke and John. She enjoys working on her practice and traveling. She can be reached at [www.hollytreepediatricdentistry.com](http://www.hollytreepediatricdentistry.com) or [ann@hollytreepediatricdentistry.com](mailto:ann@hollytreepediatricdentistry.com).

**Dr. Robert L. Delarosa** is the founding partner of Associates in Pediatric Dentistry. He is a board certified diplomate of the American Board of Pediatric Dentistry, and a fellow of the ABPD and the American College of Dentists. He obtained his Doctor of Dental Surgery Degree from the Louisiana State University School of Dentistry, where he received the ASDC Outstanding Undergraduate Student Award in pediatric dentistry. He completed his specialty training in pediatric dentistry at the University of Texas Health Science Center at San Antonio, serving as senior chief resident. He has lectured extensively to many organizations and groups, including the American Academy of Pediatric Dentistry,

Southwestern Society of Pediatric Dentistry, Southeastern Society of Pediatric Dentistry, and (g)nathos. He is a published author and was the chair of the Council on Clinical Affairs of the American Academy of Pediatric Dentistry. He has served in leadership roles in numerous dental professional organizations at the state, regional and national levels. He has also served as president of the American Academy of Pediatric Dentistry, Louisiana Academy of Pediatric Dentistry and the Greater Baton Rouge Dental Association. He holds membership in the American Dental Association, American Academy of Pediatric Dentistry, American Academy of Pediatrics, Southwestern Society of Pediatric Dentistry, Louisiana Academy of Pediatric Dentistry, the Louisiana Dental Association and the Greater Baton Rouge Dental Association. He has also served on the boards of several professional and business organizations, and remains active in the community. His family is also actively involved with the Progeria Research Foundation. A native of New Orleans, he is the married father of twins, and enjoys traveling with his family for golf and diving.

**Dr. Robert Elliott** is a diplomate with the ABPD, a Fellow with the American Academy of Pediatric Dentistry and faculty member at both The University of Louisville and University of North Carolina at Chapel Hill's dental schools. He lectures throughout the year to other dentists, specialists and residents. Elliott is a recognized authority on the development of creative and innovative office designs for pediatric dental practices and is often called upon to consult with new office construction as well as dental team and practice development strategies. He is the founder of Pedo Springboard, a consulting business for pediatric dentists, as well as the co-owner of Cary Pediatric Dentistry in Cary, N.C. Elliott finds great reward in helping others achieve and navigating the world of private practice.

# ALOHA

## Opening Ceremony & Keynote Address

# Kevin Wanzer

Friday, May 25

7:30 - 9 AM

At his lemonade stand when he was just eight years old, Kevin Wanzer offered passersby two types of refreshment: a cold cup of lemonade and hilarious, dead-on stand-up renditions of Steve Martin comedy routines. Decades later, the lemonade and Martin routines are gone. The refreshment, however, is still to be had. As a humorist, motivational comedian and keynote speaker, Wanzer has been earning rave reviews for over thirty years. Inspiring and entertaining audiences in refreshing ways is all he has ever known. He has been noted nationally as one of the most effective and entertaining speakers for inspiring and empowering audiences, celebrating Ohana and the Spirit of Aloha. Through stories and humor, he helps people reconnect with hidden passions, embrace diversity, and celebrate community through laughter.

Early in his career, Wanzer served on the staff of and appeared on Late Night with David Letterman. As a result of his early work with First Lady Nancy Reagan, President Ronald Reagan appointed him to serve as a delegate to the White House Conference for a Drug Free America, on behalf of which he spoke at the United Nations. To this day, Wanzer is still one of the youngest presidential appointees in American history.

Please come honor the best pediatric dentist during the awards portion of the morning. And celebrate the spirit of Hawaii with a unique opening.

## 100. Treatment of Vital and Necrotic Pulp on Immature Permanent Teeth

Friday, May 25

9:30 AM – 12:30 PM

Nestor Cohenca, D.D.S., F.I.A.D.T.

COHENCA

Pulp therapy aims to preserve and protect the inflamed pulp tissue from additional injury and facilitate its healing and repair while maintaining the health status of the tooth. With the advent of new biomaterials, the outcome of vital pulp therapy increased significantly with a high level of predictability. Contrarily, necrotic pulps with apical periodontitis present a clinical challenge, particularly in immature roots with short undeveloped root structures, thin dentinal walls, wide-open foramens and unpredictable disinfection, all of which will affect the long-term treatment outcome. MTA apexification remains a great treatment option for immature necrotic teeth, particularly for cases with advanced root development. Pulp revascularization exploits the full potential for tissue ingrowth toward dentin-like tissue deposition and stronger roots able to withstand fracture, mainly on teeth with poor maturation. This presentation will review the current evidence-based research for vital and non-vital therapy for the young permanent dentition and illustrate the importance of case selection to obtain positive outcome.

Upon completion of this course, attendees will be able to:

- Treat vital pulp exposures using the latest advancements on materials and techniques.
- Understand the concept of pulp revascularization for treatment of immature teeth with necrotic pulps.
- Develop the most predictable treatment plan for immature teeth with necrotic pulps to obtain a positive outcome.

**Dr. Nestor Cohenca** completed the endodontic program at the Hebrew University in Jerusalem cum laude and received the Best Graduate Student Award. He then served 11 years on faculty at the school while maintaining a private practice limited to endodontics. From 2003 to 2005, he served as a clinical assistant professor and coordinator of Trauma and Sports Dentistry at University of Southern California. Thereafter, Cohenca joined the University of Washington where he completed his endodontic certificate in 2008 and served as tenured professor of Endodontics and Pediatric Dentistry from 2005-2014. He served as director of Endodontics and the Multidisciplinary Traumatology Unit at the School of Dentistry, the Center for Pediatric Dentistry, and Seattle Children's Hospital. Currently he serves as affiliate professor at the University of Washington, professor at Seattle Children's hospital and maintains a private practice limited to Endodontics in Everett, Wash. He is a Diplomate of the Israel Board of Endodontics and the American Board of Endodontics. Cohenca is a Fellow of the IADT and received an honorary membership to Omicron Kappa Upsilon National Dental Honor Society. He has published more

PD

than 75 peer-reviewed articles, 10 chapters and a new book entitled "Disinfection of Root Canal Systems: The Treatment of Apical Periodontitis". Cohenca currently serves as president of the International Association of Dental Traumatology. Cohenca provided more than 200 lectures around the world and is well known as one of the experts in dental traumatology, Endo-Pedo related topics, vital pulp therapy, CBCT and root canal disinfection.

## 110. Who Caries?

Friday, May 25

9:30 AM – 12:30 PM

Brian Novy, D.D.S.

NOVY

Let's face it, sitting through a lecture about dental caries doesn't sound appealing (in fact, it sounds downright boring). However, the science of clinical cariology is beginning to have an impact on restorative techniques and technology. Handpieces and burs will remove compromised tooth structure, but comprehensive patient care involves addressing the chronic disease that leads to cavitation. Combining the disease management with evidence-based dental materials can take the practice of dentistry to new heights,"and give Streptococcus mutans more to fear than stronger fluoride.

Upon completion of this course, attendees will be able to:

- Explain the mixed bacteria ecological plaque hypothesis.
- Describe bacteria implicated in caries and those that are associated with oral health.
- Implement disease management in practice.

**Dr. Brian Novy** is the executive director of the DentaQuest Oral Health Center and director of practice Improvement at the DentaQuest Institute in Westborough, Mass. He served on the ADA Council of Scientific Affairs, as chair of the CAMBRA Coalition, and was recently appointed the consumer representative on the FDA dental products panel. In 2009, the American Dental Association awarded Novy and his office the title, "Adult Preventive Care Practice of the Year."

## 120. Update on the Spectrum

Friday, May 25

9:30 AM – 12:30 PM

Raphael Bernier, Ph.D., Travis M. Nelson, D.D.S., M.S.D., M.P.H.,

BERNIER

NELSON

Autism spectrum disorder (ASD) is one of the most common developmental disorders diagnosed worldwide. According to the Centers for Disease Control, one in 68 American children have been diagnosed with ASD. This high prevalence means that

PD

PD  
DT

every pediatric dentist will encounter children with autism in their practice. Presenters in this session will discuss practical, patient-centered treatment approaches for this population. Bernier will review the medical and behavioral aspects of ASD, and Nelson will cover dental implications and treatment strategies for care of this patient population.

Upon completion, attendees will be able to:

- Identify diagnostic criteria for ASD and the causes of clinical heterogeneity within the diagnosis.
- Understand what the most common comorbid medical conditions and associated conditions are and how they impact the clinical presentation of ASD.
- Understand the common behavioral patterns observed in ASD.
- Identify ways to connect with patients and families of children with ASD.
- Learn clinical tips to facilitate oral examination and connect with patients.

**Dr. Raphael Bernier** is a professor in the Department of Psychiatry at the University of Washington, the clinical director of the Seattle Children's Autism Center, associate director of the Center on Human Development and Disability, and a licensed clinical psychologist. He received his Ph.D. at UW, his clinical training at UCLA, and also holds degrees from the University of Wisconsin and Tufts University. As the author of over 100 scientific articles and chapters and the book, "Autism Spectrum Disorders: A Reference Handbook", the principal investigator of several NIH and privately funded studies focused on the etiology and neuroscience of Autism Spectrum Disorders, and an active clinician, Bernier is at the intersection of science and practice of ASD.

**Dr. Travis Nelson** is a clinical associate professor in the Department of Pediatric Dentistry at the University of Washington. Nelson received his D.D.S., from Loma Linda University and subsequently completed a residency in pediatric dentistry and a Masters of Public Health degree at the University of Washington. He is a board certified Diplomate of the American Board of Pediatric Dentistry. Nelson has authored numerous published articles, and has lectured nationally and internationally on a variety of topics. His research interests include providing dental care for children with autism, behavior guidance, and procedural sedation.

## 130. Work Life Balance

Friday, May 25

9:30 AM – 12:30 PM

Uche Odiatu, D.M.D.

P  
D  
T  
S

ODIATU

Whether you are a dentist, hygienist, dental assistant or front office team member, improving your physical health will enhance everything you do. John F. Kennedy said, "Physical fitness is the basis of all forms of excellence." Did you know two-thirds of the top Fortune 500 executives exercise at least three times a week? And there's scientific proof on why being fit empowers you to handle the enormous demands of a grueling practice, tight schedules and balance a full personal life. Living a healthy lifestyle can increase your personal productivity up to 25 percent. With the latest research on active living, "peppered with a whole lot of humor," you will uncover powerful reasons to revamp your health and fitness dreams and goals starting today. This empowering and inspirational session will have you breaking through to the next level at work, rest and play with the newest science of nutrition (gut health), supplementation (probiotics, fish oil, whey protein, etc.), exercise (interval and resistance training) and sleep mastery.

Upon completion of this course, attendees will be able to:

- Gain insights into the three components of a complete exercise program and how to get the best sleep for recovery.
- Discover how stress negatively impacts digestion, the immune system and aging and 10 new ways to slay the stress dragon.
- Understand the new science of nutrition with respect to gut health, probiotics, nutraceuticals and dieting.

**Dr. Uche Odiatu** is the author of *The Miracle of Health*, a professional member of The American College of Sports Medicine, an NSCA Certified Personal Trainer and a busy practice dentist in Toronto. This busy dad of four young children has been the invited guest on over 400 TV and radio shows and has lectured 400 times in Canada, the USA, England, Norway, Jamaica, Denmark, Bahamas and Bermuda.

## 140. Managing the Caries Continuum

PD

Friday, May 25

1:30 PM – 3:30 PM

Kevin J. Donly, D.D.S., M.S., Rebecca L. Slayton, D.D.S., Ph.D.

DONLY

SLAYTON

This presentation will discuss the prevention and management of caries in children including risk assessment, caries classification systems, non-surgical management strategies and restorative options. Evidence for each strategy will be discussed

with consideration for age and behavior of the patient.

Upon completion, attendees will be able to:

- Understand the caries process and factors that contribute to increased risk of disease.
- Be familiar with non-surgical strategies to manage caries in children and adolescents.
- Understand the best restorative options for cavitated lesions in children based on current evidence.

**Dr. Kevin Donly** is a professor and chair in the Department of Developmental Dentistry and professor in the Department of Pediatrics at the University of Texas Health Science Center at San Antonio. Previous positions include professor and associate director of the Center for Clinical Studies at the University of Iowa, associate professor, Pediatric Dentistry at the University of Texas Dental Branch at Houston and Associate Professor, The University of Texas Medical School. He received his D.D.S. in 1984, certificate in pediatric dentistry in 1986, and M.S., in 1986 from the University of Iowa. Donly is a diplomate of the American Board of Pediatric Dentistry, is past president of the American Society of Dentistry for Children and past chair of the Public Information Committee for the American Academy of Pediatric Dentistry. He served as the AAPD chair of the Council on Post-doctoral Education and was also on the Board of the American Academy of Pediatric Dentistry Foundation and the American Dental Association Foundation. He also served as the American Academy of Pediatric Dentistry academic trustee-at-large, and was the Pediatric Dentistry Commissioner for the Commission on Dental Accreditation. Currently, he is the secretary-treasurer of the American Academy of Pediatric Dentistry. He has published over 350 chapters, manuscripts and abstracts associated with pediatric dentistry and dental restorative materials research and clinical utilization. He has received grants or research support from NIH/NIDCR, HRSA, as well as the 3M ESPE, Premier, Bisco, GC, NuSmile, Dentsply, Ivoclar, Kerr, Procter and Gamble, Church and Dwight, Optiva, Oral-B, Enamelon, Atrix Laboratories, Inc. and Guidor companies.

**Dr. Rebecca Slayton** is professor emeritus of the Department of Pediatric Dentistry at the University of Washington School of Dentistry and former director of the Dental Department for Seattle Children's Hospital. Prior to her retirement, she served as the chair of the Department of Pediatric Dentistry at the University of Washington and before that, she was professor and chair of the Department of Pediatric Dentistry at the University of Iowa. Slayton received her D.D.S., certificate in pediatric dentistry and Ph.D. in Genetics all at the University of Iowa. She is a board certified pediatric dentist and a diplomate of the American Board of Pediatric Dentistry. She serves as the chair of the Scientific Program Committee of the American Academy of Pediatric Dentistry and a member of the ADA Council on Scientific Affairs. She has been an examiner for the American Board of Pediatric Dentistry oral clinical exam since its inception. She has published numerous articles in peer-reviewed journals and textbook chapters. She is the co-editor of a textbook entitled, "Early Childhood Oral Health". Her research focuses on caries risk assessment tools and genetic factors that contribute to dental caries susceptibility.

## 150. Current Principles and Management of Anterior Supernumerary, Impacted, Ectopic and Missing Teeth

PD

Friday, May 25

1:30 PM – 3:30 PM

Patricia H. Medland, D.D.S., M.S.

MEDLAND

Ideal treatment of anterior tooth impaction (secondary to supernumerary teeth, trauma or ectopic development) and missing teeth (due to agenesis or trauma) aims to minimize long-term maintenance and maximize long-term esthetics. Temporary anchorage devices (TADs) and CBCT imaging now allow more teeth to be successfully disimpacted and spaces (left by missing teeth) to be closed to maintain alveolar bone and avoid prostheses. Realizing the potential of these new treatments requires directed treatment planning by pediatric dentists from the time of initial diagnosis. Clinical cases will be presented demonstrating the current interdisciplinary management of these challenging clinical problems in young patients.

Upon completion, attendees will be able to:

- List causes of anterior tooth eruption disturbances and their incidence/prevalence.
- Identify the diagnostic methods for assessment of anterior supernumerary, impacted, ectopic and missing teeth.
- Discuss the treatment options and ideal treatment timing for anterior supernumerary teeth and missing or impacted anterior teeth.

- Recognize factors associated with successful temporary anchorage device (TAD) protraction of posterior teeth to close space where teeth are lost or missing

**Dr. Patricia Medland** has a D.D.S. degree from West Virginia University (1977) and M.S. degrees in pediatric dentistry and orthodontics from the University of North Carolina (1982, 1988) and currently is an adjunct associate professor in orthodontics at the University of Queensland. She has combined private orthodontic practice in Surfer's Paradise, Australia, with teaching in pediatric dentistry and orthodontic graduate programs since 1990. Her practice and teaching focuses on age-appropriate orthodontics. She has a particular interest in the early diagnosis and treatment of anterior tooth impactions and missing teeth and the application of new technologies to improve outcomes for this challenging group of young patients.

## 160. Dental Benefits Symposium

Friday, May 25

1:30 – 3:30 PM

1:30 – 2:15 PM

2019 CDT Codes

**Mary Essling, R.D.H., M.S., AAPD Director of Dental Benefit Program**

ESSLING

SCHAAK

The coding workshop will cover all of the CDT-2018 additions, revisions and deletions that pertain to pediatric dentists and general dentists who see children. In addition, the course will offer advice for submitting efficient and clean claims, medical claims submissions, cross coding dental procedures to medical procedure and diagnosis codes, developing meaningful narratives, Medicaid policies on reimbursement issues and tips for appealing claim denials.

**Mary Essling** is dental benefits director for the American Academy of Pediatric Dentistry. Essling has previous experience working on dental and medical procedure coding and third-party insurance matters for both the American Dental Association (from 1994 - 2002) and the American Society of Plastic Surgeons. She earned her Bachelor of Science degree from Marquette University and an M.S. in Health Law Policy from DePaul University. In addition, Essling is a licensed registered dental hygienist in Illinois, Indiana and Texas.

2:15 – 3 PM

**Big Data, Little Teeth: How Technology Enables Happier, More Engaged Pediatric Dental Networks**

**John Schaak, J.D., President, Scion Dental**

John Schaak will present on building a happier, more engaged pediatric dental network. This is a critical contributor to meeting the Quadruple Aim's goal of enhancing the patient experience, improving population health, reducing costs, and engaging

providers in both commercial and government-sponsored dental programs. Getting there can be a challenge, however, especially in the world of budgeted health care, i.e., Medicaid. Since money is limited, the only option is to develop better programs and technology strategies that reduce administrative burdens for providers while also encouraging appropriate and cost-effective care. In his address, Schaak will highlight how the industry can leverage data analytics, automation, and digital tools to create efficiencies, increase provider satisfaction, recognize good providers, drive higher levels of access, and encourage more preventative care – all in an effort to stretch limited dollars to provide more and better care.

Upon completion, attendees will be able to:

- Discuss how the right technology strategy, built on a foundation of analytics, access, and automation, can transform Medicaid administration.
- Describe the effects that formally recognizing good pediatric dental providers have in delivering a higher standard of care while stretching budgeted dollars further.
- Identify common causes of fraud, waste, and abuse and the effects they have on pediatric patients as well as Medicaid dental programs overall.

**John Schaak** and his team are responsible for driving growth, operational performance, and customer satisfaction across SKYGEN USA's suite of solutions. He leads efforts to improve effectiveness and efficiencies in the company's benefits administration solutions, advance business services including client implementations, and increase customer responsiveness, making it easier for clients to do business with SKYGEN USA as their strategic solutions partner. Schaak brings to his position extensive leadership experience in matters of business and in child advocacy. Prior to joining SKYGEN USA, he was a partner with the national law firm Quarles & Brady. He is an experienced speaker who, among other things, has addressed the national conference of The National Association of Dental Plans, providing his vision of "The Insurance Company of the Future." He further takes every opportunity to speak about the need to protect children from pediatric dental abuse, including a recent presentation to the National Health Care Anti-Fraud Association on "Pediatric Restorative Benefits: Potential for Fraud & Abuse." Schaak formerly served on the board of directors for Wells Street Academy, a school for children with special needs. During his time as a practicing attorney, he also created and oversaw an award-winning truancy court program that continues to provide pro bono legal assistance to students. Schaak has been listed on the Wisconsin Super Lawyers, Rising Stars list multiple times. He holds a Juris Doctorate from Marquette University Law School. He earned a Bachelor of Science Degree in Political Science and Criminal Justice with a minor in Sociology from the University of Wisconsin Oshkosh.

3 – 3:30 PM

**Questions from the Audience**

## 170. Mini Clinics I

PD

Friday, May 25

1:30 – 3:30 PM

1:30 – 2:15 PM

### The Diagnostic Challenge in Pediatric Dentistry Part IV

*Juan F. Yepes, D.D.S., M.D., M.P.H., M.S., Dr.P.H.*

After three successful Annual Session presentations, the case discussion is coming for the fourth time. This fast-to-the-point session will bring to the audience three patients with an interesting challenge. Differential diagnosis is the center-point of the discussion together with a brief review of the final diagnosis.

2:15 – 3 PM

### Odontogenic Infections and Antibiotic Use

*Keri Discepolo, D.D.S., M.P.H.*

Best practices for antibiotic use are discussed. Spreading odontogenic infections are important to diagnose early and manage appropriately; discussion regarding ineffective category/dosage of antibiotics are described. Due to the growing body of evidence regarding antibiotic resistance, it is important to reduce overuse and misuse of systemic antibiotics.

3 – 3:45 PM

### New Guidelines on SDF

*Timothy Wright, D.D.S.*

Caries lesions continue to be managed most often using surgical approaches. While the use of silver products is not a new concept for caries management, the introduction of silver diamine fluoride (SDF) to the US marketplace in 2015 provided a new non-surgical caries management tool. The mechanism of action is thought to be a result of the compounds combined antimicrobial and remineralization properties. Based on systematic reviews of clinical trials the AAPD developed a guideline recommending the use of 38% SDF as part of a comprehensive caries management approach. This presentation will review the scientific evidence that informs this guideline for the use of silver diamine fluoride as a caries management tool.

## Posture Perfect Workshop

PD  
DT  
S

Saturday, May 26

6:30 – 7:30 AM

*Uche Odiatu, D.M.D.*

Cost: \$50

Would you like to experience a gentle series of exercises at the beginning of your day that will make you feel revitalized and invigorated? This session was designed to help change your perception of morning exercise. This fusion of gentle yoga poses, Tai Chi and Uche's unique series of mind, body and spirit moves

will enliven and refresh you without breaking a sweat. Attend by yourself or in a group, "this is a feel good 60 minutes." Wear shorts, tights, T shirt, etc. Dress for comfort.

Upon completion of this workshop, attendees will be able to:

- Practice simple stretches to balance, reboot and energize the busy professional.
- Discover easy body weight exercises to tone your 600 muscles/206 bones and improve posture.
- Participate in a mind – body – spirit series that will awaken your inner wisdom.

**Dr. Uche Odiatu** is the author of *The Miracle of Health*, a professional member of The American College of Sports Medicine, an NSCA Certified Personal Trainer and a busy practice dentist in Toronto. This busy dad of four young children has been the invited guest on over 400 TV and radio shows and has lectured 400 times in Canada, the USA, England, Norway, Jamaica, Denmark, Bahamas and Bermuda.

## Breakfast Rounds I

Saturday, May 26

6:30 – 7:30 AM

These informal small group settings encourage interaction between the speaker and the attendees. A hot breakfast is included in the ticket price, \$50.

### BR 01 Dentistry Doesn't Do It For Me Anymore—How To Get Your Spark Back

*Laila B. Hishaw, D.D.S.*

So tired of the repetition and stress of dentistry that you're ready to leave it? Like any relationship, we can keep the passion alive and fight for it! We'll identify areas of stagnation, frustration and fatigue, revealing opportunities where we can evolve as dental professionals to bring the spark back!

### BR 02 Hanging Your Single Shingle—Strategies For Starting Your Own Private Practice

*Robert D. Elliott, D.M.D., M.S.*

Strategies and handouts on starting a solo private practice will be discussed. Attendees will receive a cookbook manual that sequences the events and suggests a timeline when putting everything together to open an office. Topics covered range from initial concept to the end of your first year of practice.

### BR 03 Are the Pediatricians Referring to You?

*Craig Steven Hollander, D.D.S., M.S.*

A discussion of time-tested methods to increase referrals into your office by pediatricians and general dentists and help increase your visibility within your professional community.

**BR 04 Arresting Dental Caries with Silver Diamine Fluoride: A Non Invasive Technique for Caries Management**

*Sumita Upadhyay, MDS.*

A detailed description of Silver Diamine Fluoride (SDF) along with clinical trials will be presented. The presentation will highlight on the cases treated with SDF along with the follow-up.

**BR 05 Black Jack Breakfast: Getting Parents to Go All In on Silver Diamine Fluoride**

*Jeanette MacLean, D.D.S., Jonathon E. Lee, D.D.S.*

Yes, you know silver diamine fluoride is a safe and effective caries treatment. In fact, you may already own a bottle. But are you still struggling with presenting this option to parents? Learn from two aces of SDF how to successfully incorporate this powerful oral medicine into your clinical practice.

**BR 06 Cleft Care and the Role of the Pediatric Dentist**

*Erin Shope, D.M.D., M.S., Elizabeth Prada, D.M.D., M.P.H.*

Pediatric dentists are crucial in the care of children with cleft lip and palate. Treatment for CLP requires oral health. Pediatric dentists are often poorly represented on craniofacial teams. We will discuss the unique role pediatric dentists play on craniofacial teams by providing early, comprehensive and family-centered care.

**BR 07 Haters Gonna Hate: How to Handle and Respond to Bad Online Reviews**

*Raymond J. Tseng, D.D.S., Ph.D.*

Hateful parents and negative, untruthful reviews can sink your practice. We'll discuss review policies of Google/Facebook/Yelp, and the legal response options you have. We'll also discuss the psychology behind a good response, and go over real-life examples comparing what was said, what actually happened and how to respond effectively.

**BR 08 Longevity of Restorative Treatments in Pediatric Patients: Sealants, Composites, Amalgams and Vital Pulp Therapies**

*Natalia Chalmers, D.D.S., Ph.D.*

The goal of this retrospective study was to evaluate the longevity of restorations in primary molars, based on dental claims data for children 0-14 years of age. The objectives were to identify specific factors (patient age at initial treatment, restoration size and restorative material), which significantly associated with restoration survival.

**BR 09 Office-Based Anesthesia: Safety and Outcomes in Pediatric Dental Patients**

*James E. Jones, D.M.S., M.S.D., Ed.D., PhD.*

This presentation will examine the procedures and outcomes for over 7,000 children in which dentist anesthesiologists provided office-based general anesthesia for pediatric dental patients. Discussions will include patient demographics, ASA classifications, airway management techniques, anesthesia and recovery times and adverse events. A typical patient procedure will be presented.

**BR 10 Pulp Therapy for Primary and Young Permanent Teeth**

*Patrice Wunsch, D.D.S., M.S.*

Valuable tips and information for treatment of deep caries in primary and young permanent teeth.

**BR 11 Reiki, A Complementary Technique To Behavior Guidance**

*Khanh Le, D.D.S., Reiki Master*

Reiki is a technique for stress reduction and relaxation. The presentation will include an explanation of reiki, its origin and its applications for the dental patient, dentist and practice.

**BR 12 Scared of Your Crash Cart? An Informal Review of a Typical Crash Cart with an Emphasis on Pharmacology and Common Emergency Management Scenarios**

*James Lipon, D.D.S.*

If you are scared to use any of the medication in your crash cart, this informal discussion is for you. Individual medications will be reviewed with an emphasis on how they would be given and which emergencies they would be suited for.

**BR 13 Serving Smiles: Charitable Dentistry for Children**

*Deborah C. Sullivan, D.D.S., M.S.*

Participants will learn how our office makes serving children, who can't repay us, a foundation of our practice. I'll highlight ways we give our services to the poor and what we receive in return, the smiles of those who can't help themselves. Opportunities for local and global service will be shared.

**BR 14 The Art of Conscious Sedation**

*Michael Rosenbaum, D.M.D.*

This presentation will consist of several pearls that will assist the provider in effectively administering conscious sedation to the pediatric dental patient.

**BR 15 Think Like a Millennial—The Online Presence Today’s Parents Expect**  
*Scott G. Childress, B.S.*

Family-focused dental practices face a unique challenge in reaching today’s millennial parents. Dentists are tasked with crafting the online presence expected by tech savvy parents suspicious of traditional marketing. We’ll look at local search essentials and must-have website features as well as social media trends and online reviews.

**BR 16 Transition from DSO to Private Practice—How to Break Out Without Suffering a Break Down**  
*Ronald H. Hsu, D.D.S., M.S.*

This presentation will give brief descriptions of what a DSO is; including explanations of the different business models available. There will be a brief discussion of the pros and cons of working in a DSO environment and a detailed discussion of preparation for building a start-up and how to manage the stress that will come.

**BR 17 Treating Deep Carious Lesions in Vital Permanent Teeth**  
*Jarod W. Johnson, D.D.S.*

Vital pulp therapy is practiced daily in dentistry. Practitioners routinely arrest or remove carious lesions in our offices using a variety of treatments. There is some debate, though, in the fields of pediatric dentistry and endodontics about therapy for vital permanent teeth with deep carious lesions.

**BR 18 When Laughing Gas Becomes Not So Funny**  
*Yawen Peng, D.M.D.*

Nitrous oxide has been widely used as anesthetics in both dental and medical fields for the pediatric population. More reports of hematologic and neurologic complications associated with recreational and medical usages of it began to surface. Dentists should be aware of these effects and use it wisely on our patients.

## 200. Coffee Clutch

DT

**Saturday, May 26**

**7:30 – 10:30 AM**

*Moderators: Ann M. Bynum, D.D.S., Robert D. Elliott, D.M.D., M.S., Jackie L. Sanders, R.D.H., M.B.A.*

BYNUM

ELLIOTT

SANDERS

Real-world scenarios we encounter everyday in our offices will be presented and discussed at each break-out table. Spend the morn-

ing with your peers discussing key issues that come up in your office every day. This is a group effort, audience driven and fully interactive program for all team members!

Upon completion, attendees will be able to:

- Understand how other offices handle similar issues.
- Share in the participation of challenges your office may have encountered.
- Support and network with difficult patients and parents.

**Jackie Sanders** is Sunstar’s manager of professional relations and communications, in Schaumburg, Ill. Sanders serves as a liaison responsible for communications with professional and industry associations, educational institutions and the dental professional community. She is a recognized and active opinion leader within the dental hygiene community and associated social networking programs. Prior to joining Sunstar 8, Sanders practiced for 13 years as a registered dental hygienist. During this time, she also provided consulting services to several dental manufacturers and held an adjunct faculty position at her alma mater, Weber State University. She proudly serves on the ADEA Legislative Advisory Council, ADHA IOH Advisory Committee, Dimensions and several editorial boards.

*Please have your staff sign up during registration so we can plan accordingly. There is no fee for this course.*

## 210. MiniClinics II

PD

Saturday, May 26

7:30 – 10:30 AM

7:30 – 8:15 AM

### Incisor Trauma and Early Orthodontic Treatment

*Lorne D. Koroluk, D.M.D., M.S.D., M.S.,  
F.R.C.D.(C)*

Incisor trauma in the developing dentition is a common occurrence that can have significant long term sequelae. This session will review the epidemiology and risk factors associated with incisor trauma. Increased overjet and lip incompetence have been suggested as justification for early orthodontic treatment in the mixed dentition to prevent future incisor trauma. This session will present an evidence based review of early orthodontic treatment and incisor trauma.

8:15 – 9 AM

### Monitoring for the Sedation Patient—Our SIM Model

*Christopher Heard, M.B.C.H.B., F.R.C.A.*

Monitoring a sedated patient using EKG, pulse oximetry and capnography is standard practice. This requires the dentist to interpret these waveforms. We use SIM based sedation training with short videos of these to review both benign and serious complications that can occur during sedation. These will be presented and reviewed.

9 – 9:45 AM

### Innovative Infant Oral Care Community-based Intervention

*Francisco J. Ramos-Gomez, D.D.S., M.S.,  
M.P.H.*

This session will review how to implement a culturally competent, structured Caries Management by Risk Assessment (CAMBRA) procedure and the easy-to-use AAPD's six step protocol for infant/toddler oral care to improve clinical standards. The session will define essential anticipatory guidance (i.e. Age One Visit), motivational interviewing and self-management goals. This innovative and unparalleled clinical model represents the future of oral health, early intervention and dental disease management, and sets a new standard of comprehensive, integrated, widely accessible and evidence-based dental care emphasizing prevention.

9:45 – 10:30 AM

### Top Google Search Results in Your City: 10 Tips for Localizing your Website Content

*Scott G. Childress, B.S.*

Top online search results ranking is essential for new patient growth. Dentists will learn how to localize their website so that it speaks to their unique place within their community while also providing important ranking signals to Google.

## 220. GSRA/Sunstar Research Fellowship Awards

PD

Saturday, May 26

7:30 – 10:30 AM

The NuSmile GSRA award recipients will present their research and answer questions. The 2017-18 Sunstar Research Award Recipients will also present their research.

## Evidence-Based Dentistry Workshop

PD

Saturday, May 26

8:30 AM – 5 PM

*N.Sue Seale Coll, D.D.S., M.S.D., Peter H. Buschang, Ph.D.*

Cost: \$250

SEALE COLL

BUSCHANG

Following the introduction of evidence-based dentistry, the attendees will learn how to develop clinical questions using PICO (population, intervention (or exposure for observational studies), comparator and outcomes), a method used to refine

clinical questions and facilitate computer searches. Basic elements of PubMed will then be introduced and applied that provides the attendees with the computer skills necessary to perform literature searches related to specific clinical questions. Finally, basic and practical information about research design will be discussed and used by the attendees to critically evaluate published research studies and rank them according to the strength of evidence they provide (ranging from expert opinion to systematic reviews).

Upon completion, attendees will be able to:

- Develop an appropriate clinical question.
- Identify the relevant literature pertaining to the question.
- Critically evaluate the literature.

**Dr. Peter Buschang** is professor of orthodontics and director of orthodontic research at Baylor College of Dentistry. He received his Ph.D. in from the University of Texas at Austin in 1980. From 1980-1983, he was a NIDR postdoctoral fellow in the Department of Orthodontics, University of Connecticut Health Science Center. From 1983-1988, he was a FRSQ scholar in the orthodontic section and Human Growth Research Center, University of Montreal. He regularly reviews articles for numerous journals and has served as associate editor for several journals (currently Angle Orthodontist). Buschang has published over 150 peer-reviewed articles and book chapters focusing on craniofacial growth, developmental adaptations associated with treatments and oral-motor function. He is director of Baylor's graduate core course entitled "Research Design and Methodology."

**Dr. N. Sue Seale Coll** is professor emerita, Department of Pediatric Dentistry, Texas A&M Dental School in Dallas, Texas, where she was chairman of the Department of Pediatric Dentistry from 1986 until 2009. She retired from Texas A&M in 2017 and is currently clinical professor in the Division of Pediatric Dentistry at the University of Maryland Dental School in Baltimore, Md., where she teaches part-time. She served on the board of trustees of the American Academy of Pediatric Dentistry from 1999-2002, was named AAPD Pediatric Dentist of the Year in 2001 and received the Merle C. Hunter Leadership Award in 2003. She is a diplomate of the American Board of Pediatric Dentistry. She is currently editor-in-chief of *Pediatric Dentistry* and has published more than 100 articles in peer-reviewed journals and mentored numerous master's students' thesis projects.

## 230. Revisiting Behavior Management—The Basics Still Work

PD  
DT

Saturday, May 26

11 AM – 12:30 PM

Greg Psaltis, D.D.S.

PSALTIS

As times change, so do children and parents. New techniques for dealing with both in the pediatric dental setting are crucial to the success of any practice. Much emphasis has been placed on sedation, but there remain many “tried and true” techniques that can propel a practitioner to greater success and satisfaction. Typically considered the greatest challenge, parents will

be emphasized in this course to develop means to not only make them “not the problem,” but actually have them become your best means marketing as well as your entertainment. This is a “must” course for new practitioners and a happy reminder to those with more experience.

**Dr. Greg Psaltis** has been a pediatric dentist for 43 years, most of which have been in private practice in Olympia, Washington. While his primary focus has been private practice his varied career has included a long career as a speaker, both nationally and internationally on a variety of dental topics, as well as communication skills, practice management and volunteerism. He is currently very much involved with two volunteer clinics in Mexico that he developed and administers himself. Each project provide comprehensive care for the indigent and medically compromised children of the Los Cabos and Zihuatanejo areas. He is well published in a variety of dental journals and was given the Gordon Christensen Speaker Recognition Award for his excellence in professional presentations. His lengthy career has enabled him to bring both insights and humor to his lectures.

## 240. Sedation for the Young Patient—Part 1

PD

Saturday, May 26

11 AM – 12:30 PM

Christine Quinn, D.D.S., M.S.

QUINN

Sedation, anesthesia, neurodegeneration, neuroprotection— what does this all mean for our young patients? Sedating the young child is not without risk. This talk will be a discussion on minimizing those risks especially when it comes to protecting the young child's developing brain, including the current research on the effects of sedative medications and general anesthesia on

the developing brain.

Upon completion of this course, attendees will be able to:

- Define neurodegeneration and neuroprotection as it relates to sedative and general anesthetic agents.
- Identify which medications are associated with neurodegeneration and those associated with neuroprotection.
- Discuss with parents the potential risks and benefits to having their child undergo sedation or general anesthesia, as it pertains to the child's developing brain.

**Dr. Christine L. Quinn** is a clinical professor of anesthesiology in the Division of Diagnostic and Surgical Sciences at the UCLA School of Dentistry, coordinator of anesthesia and pain control and director of the Dental Anesthesiology Residency Program. She is actively involved in both didactic and clinical teaching at the predoctoral and postdoctoral levels at the UCLA School of Dentistry. Quinn is a full-time faculty member of the UCLA School of Dentistry and provides in-office anesthesia services as part of her faculty responsibilities. She received her D.D.S. degree from the University of Southern California School of Dentistry in 1987 and obtained her M.S. and training in dental anesthesiology in 1989 from The Ohio State University College of Dentistry. Quinn is an in-office examiner for the state of California for general anesthesia. She serves on the board of directors for the American Dental Board of Anesthesiology and the California Dental Society of Anesthesiology and is a past president of the American Society of Dentist Anesthesiologists. Quinn is a diplomate of the American Dental Board of Anesthesiology. Besides being actively involved in research on pain and anxiety control, she has been providing hospital and office-based anesthesia services for dental patients since 1989.

Sponsored by Sedation Resource

## 250. New Dentist Course: Practical Tidbits for the Millennial Dentist

PD

11 AM – 1 PM

This fast-paced, interactive session allows YOU to select the topics that mean the most to you. Personalize this course with your questions to the presenters and get the most out of this intimate setting. Attendees will rotate every 30 minutes to a different station. Hear from the best pediatric dentistry has to offer!

**How to Get Involved in Your Community to Market Your Practice – Jeannie Beauchamp**

**Using Online Reviews to Help Build Your Practice – John Carroll, Yelp**

**Five Common Essentials for Successful Practices – Rob Delarosa**

**Balancing Personal and Professional Life While Getting Board Certified – LaRee Johnson**

**Public Policy and Advocacy – Beverly Largent**

**How to Manage Your Finances – Jason Luse**

**Silver Diamine Fluoride – Jeanette MacLean**

**Navigating Through and Understanding Medicaid – Jessica Meeske**

## 260. Heart Work is Not Hard Work—Volunteering to Your Highest Good

PD  
DT

Saturday, May 26

1:30 – 3 PM

Greg Psaltis, D.D.S.

PSALTIS

You may have considered doing volunteer work, but weren't sure where or how. In this presentation, you will learn a variety of ways to accomplish that goal, ranging in possibilities from working in your own office to creating your own mission project. Included will be specific ideas for work within your community or joining an established program. Other emphasis will be

on the two clinics that Dr. Psaltis has established in Los Cabos, Mexico as well as an on-going project in Zihuatanejo, Mexico. In all clinics, comprehensive care is provided for the indigent and medically compromised children of the areas. We are blessed to be in a profession that affords us a life style that few can enjoy. The chance to share our skills for others in need is a form of pay that cannot be spent, but instead lasts a lifetime.

## 270. Sedation for the Young Patient—Part 2

PD

Saturday, May 26

1:30 – 3 PM

Sarat Thikkurissy, D.D.S., M.S.

THIKKURISSY

The advent and success of the Age 1 Dental Home over the past two decades has immeasurably impacted the practice of pediatric dentistry. Diagnosing caries at earlier ages has led to the discussion/debate as to optimal management strategies for caries in the young child. Pharmacologic management, including both general anesthesia and procedural sedation, are among this armamentarium. This presentation will look at the physiologic behavioral and treatment variables that impact procedural sedation in the young child. The presentation will examine the evolution of health conditions associated with early childhood, as well as societal factors that drive how procedural sedation is utilized.

Upon completion of this course, attendees will be able to:

- Distinguish physiologic issues unique to procedural sedation of the young child.
- Incorporate risk management strategies into their practice.
- Place procedural sedation on the continuum of treatment in early childhood.

**Dr. Sarat Thikkurissy** is the professor, division director and director of the Advanced Education Program in Pediatric Dentistry at Cincinnati Children's Hospital. Thikkurissy obtained his D.D.S. from New York University. He completed the program in Advanced Education in General Dentistry at Wright Patterson and was in active duty in the U.S. Air Force for eight years, serving as chief of pediatric dentistry at Ramstein AFB in Germany. Thikkurissy obtained his certificate in pediatric dentistry as well as a master's degree from The Ohio State University College of Dentistry. Thikkurissy is a diplomate of the American Board of Pediatric Dentistry, has served as past chair of the AAPD Committee on Sedation and Anesthesia, and AAPD representative on the ADA Committee on Dental Education and Licensure group on Sedation. Additionally, he serves on the American Board of Pediatric Dentistry Examination committee. He has published in the areas of morbidities, quality of life and pain management in children.

*Sponsored by Sedation Resource*

## 280. PedoX

Saturday, May 26

2:30 – 3:30 PM

Anupama Tate, D.M.D., M.P.H., J. Kyle House, D.D.S.

TATE

HOUSE

### Dr. Anupama Rao

**Tate** is an associate professor of pediatrics at the George Washington University School of Medicine. She is a faculty member in the Department of Pediatric Dentistry in the Goldberg Center for

Community Pediatric Health at Children's National Medical Center. She serves as the director of Advocacy and Research. She also is director of the District of Columbia Pediatric Oral Health Coalition. She is a trustee and chairs the Grants and Programs Committee of Healthy Smiles, Healthy Children. She also chairs the Evidence-Based Dentistry Committee, Council of Clinical Affairs, and the Consumer Review Committee of the AAPD. Currently she is president of the D.C. Chapter of the AAPD. She received her D.M.D. from Harvard School of Dental Medicine and her M.P.H. from Johns Hopkins Bloomberg School of Public Health. She received her certificate in pediatric dentistry from Children's National Medical Center. She is involved in teaching, clinical practice, research and holds grants in community advocacy.

**Dr. J. Kyle House** received his D.D.S. degree from the University of Texas Health Science Center at San Antonio and served as a General Dentist in the U.S. Army. While stationed in Giessen, Germany, he was given the opportunity to treat children and discovered that pediatrics was clearly his favorite field. He attended his Pediatric Dental Residency at Madigan Army Medical Center, Fort Lewis, Wash., and the University of Washington. After leaving the Army, he spent five years as the director of Pediatric Oral Medicine at Scott & White Hospital Systems in Temple, Texas. House completed his Pediatric Dental Board Certification in April 1996. In 1999, he moved to Oregon to open his private practice in Hood River, which has expanded to four clinics. House's main concern is advocacy and access to care for children. He has served on numerous local, state, regional and national organizations that work to improve children's access to dental care, and has testified on behalf of children on a national level, providing medical information to lawmakers. In addition, House is a consultant to the American Board of Pediatric Dentistry and has assisted in providing their Oral Clinical Exams since 2006.

## Breakfast Rounds II

Sunday, May 27

6:30 – 7:30 AM

These informal small group settings encourage interaction between the speaker and the attendees. A hot breakfast is included in the ticket price, \$50.

### BR 19 Dentistry Doesn't Do It For Me Anymore—How To Get Your Spark Back *Laila B. Hishaw, D.D.S.*

So tired of the repetition and stress of dentistry that you're ready to leave it? Like any relationship, we can keep the passion alive and fight for it! We'll identify areas of stagnation, frustration and fatigue, revealing opportunities where we can evolve as dental professionals to bring the spark back!

### BR 20 Hanging Your Single Shingle—Strategies For Starting Your Own Private Practice *Robert D. Elliott, D.M.D., M.S.*

Strategies and handouts on starting a solo private practice will be discussed. Attendees will receive a cookbook manual that sequences the events and suggests a timeline when putting everything together to open an office. Topics covered range from initial concept to the end of your first year of practice.

### BR 21 Are the Pediatricians Referring to You? *Craig Steven Hollander, D.D.S., M.S.*

A discussion of time-tested methods to increase referrals into your office by pediatricians and general dentists and help increase your visibility within your professional community.

### BR 22 Arresting Dental Caries with Silver Diamine Fluoride: A Non Invasive Technique for Caries Management *Sumita Upadhyay, M.D.S.*

A detailed description of Silver Diamine Fluoride (SDF) along with clinical trials will be presented. The presentation will highlight on the cases treated with SDF along with the follow-up.

### BR 23 Cleft Care and the Role of the Pediatric Dentist *Erin Shope, D.M.D., M.S., Elizabeth Prada, D.M.D., M.P.H.*

Pediatric dentists are crucial in the care of children with cleft lip and palate. Treatment for CLP requires oral health. Pediatric dentists are often poorly represented on craniofacial teams. We will discuss the unique role pediatric dentists play on craniofacial teams by providing early, comprehensive and family-centered care.

**BR 24 Haters Gonna Hate: How to Handle and Respond to Bad Online Reviews***Raymond J. Tseng, D.D.S., Ph.D.*

Hateful parents and negative, untruthful reviews can sink your practice. We'll discuss review policies of Google/Facebook/Yelp, and the legal response options you have. We'll also discuss the psychology behind a good response, and go over real-life examples comparing what was said, what actually happened and how to respond effectively.

**BR 25 Longevity of Restorative Treatments in Pediatric Patients: Sealants, Composites, Amalgams and Vital Pulp Therapies***Natalia Chalmers, DDS, PhD*

The goal of this retrospective study was to evaluate the longevity of restorations in primary molars, based on dental claims data for children 0-14 years of age. The objectives were to identify specific factors (patient age at initial treatment, restoration size and restorative material), which significantly associated with restoration survival.

**BR 26 Office-Based Anesthesia: Safety and Outcomes in Pediatric Dental Patients***James E. Jones, D.M.S., M.S.D., Ed.D., Ph.D.*

This presentation will examine the procedures and outcomes for over 7,000 children in which dentist anesthesiologists provided office-based general anesthesia for pediatric dental patients. Discussions will include patient demographics, ASA classifications, airway management techniques, anesthesia and recovery times and adverse events. Example of a typical patient procedure will be presented.

**BR 27 Pulp Therapy for Primary and Young Permanent Teeth***Patrice Wunsch, D.D.S., M.S.*

Valuable tips and information for treatment of deep caries in primary and young permanent teeth.

**BR 28 Reiki, A Complementary Technique To Behavior Guidance***Khanh Le, DDS, Reiki Master*

Reiki is a technique for stress reduction and relaxation. The presentation will include an explanation of reiki, its origin and its applications for the dental patient, dentist and practice.

**BR 29 Scared of Your Crash Cart? An Informal Review of a Typical Crash Cart with an Emphasis on Pharmacology and Common Emergency Management Scenarios***James Lipon, D.D.S.*

If you are scared to use any of the medication in your crash cart, this informal discussion is for you. Individual medications will be reviewed with an emphasis on how they would be given and which emergencies they would be suited for.

**BR 30 Serving Smiles: Charitable Dentistry for Children***Deborah C. Sullivan, D.D.S., M.S.*

Participants will learn how our office makes serving children, who can't repay us, a foundation of our practice. I'll highlight ways we give our services to the poor and what we receive in return, the smiles of those who can't help themselves. Opportunities for local and global service will be shared.

**BR 31 The Art of Conscious Sedation***Michael Rosenbaum, D.M.D.*

This presentation will consist of several pearls that will assist the provider in effectively administering conscious sedation to the pediatric dental patient.

**BR 32 Think Like a Millennial—The Online Presence Today's Parents Expect***Scott G. Childress, B.S.*

Family-focused dental practices face a unique challenge in reaching today's millennial parents. Dentists are tasked with crafting the online presence expected by tech savvy parents suspicious of traditional marketing. We'll look at local search essentials and must-have website features as well as social media trends and online reviews.

**BR 33 Transition from DSO to Private Practice—How to Break Out Without Suffering a Break Down***Ronald H. Hsu, D.D.S., M.S.*

This presentation will give brief descriptions of what a DSO is; including explanations of the different business models available. There will be a brief discussion of the pros and cons of working in a DSO environment and a detailed discussion of preparation for building a start-up and how to manage the stress that will come.

**BR 34 Treating Deep Carious Lesions in Vital Permanent Teeth***Jarod W. Johnson, D.D.S.*

Vital pulp therapy is practiced daily in dentistry. Practitioners routinely arrest or remove carious lesions in our offices using a variety of treatments. There is some debate, though, in the fields of pediatric dentistry and endodontics about therapy for vital permanent teeth with deep carious lesions.

**BR 35 When Laughing Gas Becomes Not So Funny***Yawen Peng, D.M.D.*

Nitrous oxide has been widely used as anesthetics in both dental and medical fields for the pediatric population. More reports of hematologic and neurologic complications associated with recreational and medical usages of it began to surface. Dentists should be aware of these effects and use it wisely on our patients.

## 300. String of Pearls

PD  
DT

Sunday, May 27

7:30 – 10:30 AM

7:30 – 7:45 AM

### **Handling Primary Teeth Pulp with Soft Tissue Lasers**

*Vijay P. Mathur, B.D.S., MDS.*

The newer soft tissue laser machines can be used in various pulpal procedures in primary teeth with minimal pain and bleeding. This presentation will deal with newer protocols developed at my institute regarding soft tissue laser use in children.

7:45 – 8 AM

### **Send Home the Prevention Message in an Effective and Succinct Fashion that Appeals to the Millennials and the Gen Xers Using Blended Learning Techniques**

*Shukan Kanuga, D.D.S., M.S.D.*

Have you ever wondered if the moms in your practice are immune to your spiel on diet, brushing and flossing appointment after appointment? Here is a novel way of being effective at motivational interviewing and education on prevention which is concise, fun and effective for parents as well as patients.

8 – 8:15 AM

### **The Knocked Out Permanent Tooth: What Advice Does Your Website Give Parents, Caregivers, and First Responders?**

*Jeffrey Karp, D.MD, M.S.*

Two thousand, two hundred and two pediatric dentistry practice websites were visited. Written emergency instructions on how to manage the avulsed permanent tooth were assessed. This presentation reports the findings of this project and shows the percentage of websites that provide instructions following the American Academy of Pediatric Dentistry guidelines.

8:15 – 8:30 AM

### **The Black Pearl: Eliminating the Pirate Tooth Look with Aesthetic SMART (Silver Modified Atraumatic Restorative Treatment)**

*Jeanette MacLean, D.D.S.*

Reluctant to use silver diamine fluoride because it turns teeth black? Have a great candidate for SDF, but a parent who's more concerned with aesthetics? Dr. Jeanette MacLean will show you simple, painless techniques utilizing opaquer and glass ionomer cement to achieve aesthetic SMART restorations (Silver Modified Atraumatic Restorative Treatment).

8:30 – 8:45 AM

### **Searching for Thinspiration: The Dangerous Side of on Online Education in Eating Disorders**

*Janice A. Townsend, D.D.S., M.S.,*

Does a child in your office have a new best friend named Ana or Mia? Were you aware that an Anorexia Bible is a few clicks away? This presentation will expose the entire dental team to the dangerous online information regarding eating disorders easily available to our patients.

8:45 – 9 AM

### **Yes! We Can Easily Correct Anterior Crossbite in Primary Dentition with an Amazing Appliance**

*Elsa Alfonso-Echeverri, D.D.S.*

Anterior cross bite in primary dentition is a common and challenging problem to solve. Nitantium Palatal Expander appliance offers expansion of skeletal discrepancy while moving teeth. Treatment can be accomplished in a short period of time, minimal adjustments, no laboratory time results in beautiful smiles and happy parents.

9 – 9:15 AM

### **Management of a Case with Severe Congenital Neutropenia and Aggressive Periodontal Disease**

*Maria Regina (Ninna) Estrella, D.D.M., M.S.*

Congenital neutropenia can result in recurrent severe infections, persistent low absolute neutrophil counts and susceptibility to leukemia. They can also be affected by periodontal problems. This case highlights the multidisciplinary management of a 5-year-old patient diagnosed with severe congenital neutropenia and aggressive periodontal disease from 2013 to 2017.

## 310. Oral Diagnosis in Pediatric Dentistry: Back to Basics

PD

Sunday, May 27

7:30 – 10:30 AM

Juan F. Yepes, D.D.S., M.D., M.P.H., M.S., Dr.P.H.

YEPES

This lecture will provide a detailed review of the fascinating field of oral diagnosis in the pediatric and adolescent patient. Back to Basics is a seminar based on case-presentation format, that will cover in detail the most important issues in oral diagnosis that a pediatric dentist see in a busy practice. Radiation safety, principles of radiographic interpretation, common radiographic lesions, common soft tissue lesions, implications of systemic conditions in the practice of pediatric dentist, laboratory medicine in the pediatric patient, and the use of CBCT in pediatric dentist, are some examples of the topics that will be covered in the lecture. The lecture will follow a systematic approach based on the specific necessities of the cases that will be present. The lecture is for the interest of the entire dental team including pediatric dentists, dental hygienist, dental assistants, residents and dental students. Come and learn in a fun format. More than 15 patients with a variety of conditions, and never presented before, are waiting to be reviewed!

Upon completion of this course, attendees will be able to:

- Define the most common systemic conditions with implications for the practice of pediatric dentistry.
- Understand the most common laboratories used with patients with systemic conditions and the application in specific situations in the practice of pediatric dentistry.
- Demonstrate knowledge and understanding of the most common issues in the field of oral diagnosis (radiology and pathology) in a busy dental practice.

# Social & Networking Events

## First Timers' Reception\*

Thursday, May 24

5 - 6 PM

Join other first-time attendees to make new acquaintances from your district or mingle with old friends. The AAPD board of trustees welcomes you to the AAPD 2018!

Sponsored by NuSmile

## New Pediatric Dentist Happy Hour: The Great Lawn at the Hilton Hawaiian Village\*

Friday, May 25

4:30 - 6:30 PM

Play some games on the great lawn and listen to the waves crashing on Waikiki Beach! Want more action? We've got you covered with a great DJ!

Meet and connect with fellow new pediatric dentists and residents, then head right outside of the hotel to hop on the transportation provided by AAPD to the Welcome Reception.

Sponsored by Treloar & Heisel and Medical Protective

## AAPD Welcome Reception: Aloha Fest\*

Friday, May 25

7 - 10 PM

Bishop Museum

E como mai! Welcome to Hawaii! Get ready to immerse yourself in the unique aloha way of life here on the island as AAPD welcomes you to Honolulu and the iconic Bishop Museum found in between Mauka (the mountains) and Maka (the ocean).

Experience the true Aloha spirit and immerse yourself in the Hawaiian culture from ukeles in the Courtyard, live cultural experiences in the Atherton Hālau & Bowman Hālau Wa'a to the stunning exhibits of Hawaiian Hall. Explorers and wayfinders, discover the stars tonight in the J. Watumull Planetarium, and learn how the first Hawaiians navigated to the islands. Check out the science center where you can learn how volcanoes first formed the eight islands that make up the Hawaiian chain.

Out on the Great Lawn, mosey your way around a fun culinary journey inspired by flavors and festivals of the islands, from trendy poke to traditional poi and a smoking huli huli experience. Don't worry - we have not forgotten the SPAM. As the sun fades, the Aloha Fest Main Stage by Sunstar becomes electric with one of the hottest dance bands ever! That's right ... this party just got started.

Sponsored by Sunstar Americas, Inc.

SUNSTAR

## Career Fair

Saturday, May 26

1:30 - 3:30 PM

The Career Fair is a great opportunity for a new pediatric dentist seeking their first practice position or the more experienced dentist who is looking for a change to network with hiring organizations.

For more information on exhibiting or to download the Career Fair form, visit <http://annual.aapd.org/networking/>. The cost for AAPD Members is \$150; recruitment companies may exhibit at the price of \$500.

## PAC Donor Reception

Saturday, May 26

4 - 5 PM

(Invitation only)

## International Reception

Saturday, May 26

5 - 6:30 PM

This reception began in 2010 at the Annual Session and has continued to be a popular event for international members and attendees. Join members of the AAPD board of trustees, learn more about the AAPD and network with fellow international attendees before enjoying your evening in Hawaii.

## President's Farewell Dinner\*

Sunday, May 27

6:30 - 10:30 PM

Waialae Country Club

Tonight, we celebrate the AAPD Ohana. Ohana means friends, family, community and this year's President's Farewell Dinner blends the AAPD family with the Hawaiian community in an exchange of local and mainland traditions.

Tonight's reception and culinary experience features the world-class culinary talents of Chef Alan Wong, who will be preparing a live action station on arrival along with cocktails on the lawn overlooking the sparkling turquoise waters. Then onto this evening's spectacular dinner inspired by beachfront elegance capped by a native and fun dance party.

Reception is sponsored by Treloar & Heisel

Dinner is sponsored by MAM

### \*Ticketed Events

The First Timers' Event, New Dentist Happy Hour, Welcome Reception and President's Farewell Dinner are ticketed events. Tickets must be purchased in advance when registering to attend AAPD 2018.

## PALS Skills Check

Friday, May 25

9 AM – 1 PM

Saturday, May 26

8 AM – NOON & 1 – 5 PM

Maximum Participants: 35

Cost: \$100

### PART 2 HANDS-ON

The AAPD will be offering **Part 2 only** of the HeartCode PALS course. This is the hands-on testing requirement of the HeartCode PALS course. Students will demonstrate the skills they have learned in the online class including: one and two person infant and child CPR, rescue breathing, and fluid bolus administration. Students must bring their certificate of completion from the online class to the PALS Skills Check. In this environment, students apply their knowledge to real-time decision-making and skills development. Debriefings and coaching are provided immediately after each simulation to facilitate learning about pediatric advanced life support.

*Part 1 HeartCode PALS Online Class: NOT OFFERED BY AAPD. This is a web-based, self-directed program that teaches healthcare providers knowledge and skills needed to recognize and prevent cardiopulmonary arrest in infants and children. Students will take the online class from [www.onlineaha.org](http://www.onlineaha.org) and bring their certificate of completion to the PALS Skills Check held at the conference. The fee for Part 1 (the online class) is the responsibility of the student.*

**PALS ONLINE CLASS: Visit [www.onlineaha.org](http://www.onlineaha.org) to register**

PD

## BLS Skills Check

Friday, May 25

9 AM – 1 PM

Saturday, May 26

8 AM – NOON & 1 – 5 PM

Cost: \$100

### PART 2 HANDS-ON

The AAPD will be offering **Part 2 only** of the HeartCode BLS course. This is the hands-on testing requirement of the HeartCode BLS course. After completing the online portion, students attend a structured BLS Hands-On Session with an AHA Instructor. This session focuses on meaningful skills practice, debriefing, team scenarios, discussions of local protocols, and skills testing. Students must bring their certificate of completion from the online class to the BLS Skills Check.

*Part 1 HeartCode BLS Online Class: NOT OFFERED BY AAPD. Students will first take the BLS class online from the American Heart Association. HeartCode BLS uses a variety of eLearning assets such as dramatizations, eSimulations, animations, self-directed learning, and interactive activities to teach students BLS knowledge and skills. Students will take the online class from [www.onlineaha.org](http://www.onlineaha.org) and bring their certificate of completion to the BLS Skills Check held at the conference. The fee for Part 1 (the online class) is the responsibility of the student.*

**BLS ONLINE CLASS: Visit [www.onlineaha.org](http://www.onlineaha.org) to register**

## Evidence-Based Dentistry Workshop

Saturday, May 26

8:30 AM – 5 PM

Peter H. Buschang, Ph.D. and N. Sue Seale Coll, D.D.S., M.S.D.

Maximum Participants: 20

Cost: \$250

Following the introduction of evidence-based dentistry, the attendees will learn how to develop clinical questions using PICO (population, intervention (or exposure for observational studies), comparator and outcomes), a method used to refine clinical questions and facilitate computer searches. Basic elements of PubMed will then be introduced and applied that provides the attendees with the computer skills necessary to perform literature searches related to specific clinical questions. Finally, basic and practical information about research design will be discussed and used by the attendees to critically evaluate published research studies and rank them according to the strength of evidence they provide (ranging from expert opinion to systematic reviews).

Upon completion, attendees will be able to:

- Develop an appropriate clinical question.
- Identify the relevant literature pertaining to the question.
- Critically evaluate the literature.

PD

# Research, Poster Presentations & Awards

## My Kid's Dentists Research Poster Competition

Friday, May 25 and Saturday, May 26

FRIDAY 9 AM – 4 PM • SATURDAY 8 AM – 3 PM

My Kid's Dentist Poster Research Competition is available in the Exhibit Hall. Different topics are presented each hour. Stop by to meet the authors and discuss their presentations with them! A Poster OnDemand Stations is available in the area for attendees to view the ePosters at any time.

*Sponsored by My Kid's Dentist*

## 220. NuSmile Graduate Student Research Awards (GSRA) and the Sunstar Research Fellowship Awards

PD

Saturday, May 26

8:30 – 11:30 AM

The eight NuSmile GSRA award recipients and the three Sunstar award recipients present their research and answer questions.

*Sponsored by NuSmile and Sunstar Americas, Inc.*

SUNSTAR

## General Assembly and Awards Recognition

PDT S

Sunday, May 27

9:30 – 11:30 AM

The AAPD recognizes well-deserved recipients at an awards ceremony created to honor these recipients. Join your colleagues to honor the important research initiatives that have been conducted over the past year.

The following award presentations will be recognized and announced: the recipient of the Ralph E. McDonald Award sponsored by the Indiana Pediatric Dental Alumni Association, the Paul P. Taylor award sponsored by the Baylor Pediatric Dentistry Alumni Fund, the Samuel D. Harris Research and Policy Fellowship the Sunstar Research Fellowship Award, and the 2018 AAPD Research Poster Competition winners.

Make plans to attend the General Assembly as a member of the AAPD to learn what your Academy is doing for you and how it may affect your practice. Vote on important initiatives and find ways to get more involved in your Academy.

# Honolulu, Hawaii Tours

Aloha! Within the tour program, we have also provided Hawaii lei greeting and airport transportation services as well as many tours on Oahu along with some excursions on the other islands so you can truly experience Hawaii. This is a very busy time in Honolulu and many tours sell out; so book early and avoid standing in lines while on the island.

Please visit the website for complete details on each tour and trip and to register for the tours at <https://www.activitysaleshawaii.com/aapd2018/default.aspx>.

Reservations will close on Friday, April 23, 2018, at 5 p.m., Hawaii Standard Time. Space is limited so book now!

Trip time to be determined. For reservations, please call (877) 589-8898.

# Registration Information

Please review the following information to avoid delays in the processing of your registration or housing request.

## Who Needs to Register

Anyone (member or non-member dentist, dentists' staff or dental student) who wants to attend any portion of the Scientific Program must register. All registration categories for AAPD 2018 include all education sessions (except those specified), complimentary beverages in exhibit hall and the Scientific Proceedings. The guest registration is additional and must accompany that of an attendee; children are complimentary to the meeting, but tickets must be purchased for Social Events. Guests do NOT earn any continuing education credit; if seeking CE Credits, spouses/guests must register as Office Staff.

- Tickets to the **Welcome Reception** and Presidents' Farewell Dinner are an additional fee and must be purchased separately; see the Social Events section of the registration form and proceed accordingly.
- Additional tickets to all Social Events must be purchased during registration; onsite tickets for these functions may be limited and are subject to availability.

**The cutoff for the advance fee is Wednesday, April 4, 2018.** All registration forms submitted must be postmarked or date stamped on or before Wednesday, April 4, 2018, to qualify for advance registrations and receive the discounted rates.

*Note: To receive the member registration rate for the 2018 Annual Session, your 2017-18 membership dues must be paid in full.*

## Residents

- Registration is complimentary if you register on or before April 4, 2018.
- Residents registering after April 4, 2018, or onsite are charged \$150 in registration fees; **no exceptions will be made.**
- Student must purchase a ticket to the Welcome Reception; please see the Social Events section on the registration form and proceed accordingly.

Residents are encouraged to attend the New Dentist Happy Hour on Friday, May 25. Make the appropriate notation on the form and include payment to attend this fabulous networking event.

## Registration Methods

Registrations are processed on a first-come, first-served basis. Complete all sections of the form and include proper payment. Each registrant must complete a separate registration form.

**Online:** <http://www.aapd.org/annual>

**Phone:** (800) 974-3084

**Fax:** (301) 694-5124

**Credit card only. Allow five days for processing and receipt of registration confirmation.**

*NOTE: Please do not mail after faxing*

**Mail:  
AAPD 2018  
5202 Presidents Court, Suite G100  
Frederick, MD 21703**

Credit card or check (drawn on U.S. bank in U.S. funds) must accompany a completed registration form. No wire transfers or purchase orders will be accepted. Allow 7 – 10 days for processing and receipt of registration confirmation. **Make checks payable to AAPD/Experient.**

## Registration Hours

Please pick up your badge and materials at Registration at the Hawaii Convention Center, Hall 1. Registration is available during the following days/times:

<b>Thursday, May 24</b>	<b>7 AM – 3 PM</b>
<b>Friday, May 25</b>	<b>6:30 AM – 4 PM</b>
<b>Saturday, May 26</b>	<b>7 AM – 3 PM</b>
<b>Sunday, May 27</b>	<b>7 – 11 AM</b>

## Registration Instructions

- Type or print all information on the registration form and housing form in black ink (please print legibly). To avoid completing the forms, register online at <http://www.aapd.org/annual> for the meeting and hotel.
- AAPD Registration and Housing Services Center is not responsible for faxes not received due to mechanical failure or circumstances beyond our control.

- Due to the volume of forms received, AAPD Registration cannot confirm receipt of faxed or mailed forms.
- Attendees must be registered for the Annual Session (via form or online) in order to make hotel reservations within the AAPD hotel block using the official AAPD Registration and Housing Form or online.
- Most educational sessions do not require tickets. Seating is on a first-come, first-served basis. Many optional sessions, activities and events require additional fees and must be indicated on the registration form; applicable tickets will be included in your meeting materials.
- The Preconference Course, Breakfast Rounds, PALS, BLS and Evidence-Based Dentistry Workshop require additional fees; please indicate session choice and include fees.
- Registration forms must be submitted **on or before April 4, 2018**, to qualify for the discounted fees. Registrations received after April 4, 2018, will be automatically charged the higher registration fees.

## Cancellation and Refund Policy

All cancellations postmarked on or before May 1, 2018, will be refunded less a \$150 processing fee (\$50 for office staff and guests).

All cancellation requests must be made in writing to AAPD Registration and Housing Services for processing on or before May 1, 2018.

No refunds will be given after May 1, 2018. After this date, any extenuating circumstances must be submitted in writing to the AAPD c/o Vice President of Meetings and Continuing Education Tonya Almond at 211 E. Chicago Avenue, Suite 1600, Chicago, IL 60611. Those refunds approved are processed after the Annual Session.

Refunds are not granted for no-shows.

## Registration Confirmation

Every effort is made to provide all advance registrants with a confirmation of their registration. This notice will verify whether we received your registration prior to the deadline, and if the tickets requested will be issued.

Please check your registration and fee calculations carefully to avoid unnecessary delays in processing. If you are using American Express®, MasterCard® or Visa®, provide complete credit card information, including each digit of your credit card number, expiration date, security code number and signature.

## Name Badges

Name badges must be worn at all times by all registered attendees, including children, in order to gain access to any portion of the Scientific Program, Welcome Reception, access to the Exhibit Hall, hospitality areas and all social events.

Children's badges are provided without charge up to the age of 20; their names and ages must be listed on the registration form.

## Questions

If you have any questions regarding registration or housing, contact AAPD Registration and Housing Service Center at (800) 974-3084 Toll-free U.S. and Canada (Monday – Friday, 9 a.m. to 8 p.m. EST), (847) 996-5876 International (Monday – Friday, 9 a.m. to 8 p.m. EST), or [aapd@experient-inc.com](mailto:aapd@experient-inc.com).

# Housing Information

Please read this information carefully. You must register for the Annual Session prior to booking your hotel reservation. All housing reservations must be made through the AAPD Registration and Housing Service Center. Only one reservation allowed per form.

## Housing Reservation Methods

**Online:** <http://www.aapd.org/annual>

**Fax:** (301) 694-5124

*Credit card only. Allow 7-10 days for processing and receipt of registration confirmation.*

*NOTE: Please do not mail after faxing.*

### Mail:

**AAPD 2018**

**5202 Presidents Court, Suite G100**

**Frederick, MD 21703**

Credit card or check (drawn on U.S. bank in U.S. funds) must accompany a completed registration form. No wire transfers or purchase orders will be accepted. Allow 7 – 10 days for processing and receipt of registration confirmation.

## Reservation Deadline

All housing requests must be submitted by Wednesday, April 25, 2018, by 5 p.m. PST in order to receive the AAPD discounted room rate. After April 25, 2018, rooms and rates are subject to availability.

## Housing Information and Change/Cancellation Policies

- Reservations are processed on a first-come, first-served basis.
- All reservations require a one night's room and tax guarantee. The hotel deposit may be paid with a check drawn on U.S. banks submitted with a form (mailed forms only). **Checks should be made payable to AAPD/Experient.** Checks for hotel deposits should NOT include registration fees. This deposit will be credited to your first night stay.

- Acknowledgement of reservation request is sent after each reservation form is processed, as well as each time a reservation is modified/changed and or cancelled. For online reservation housing, acknowledgement is immediate. For fax/mailed forms, acknowledgement will be sent within two business days of completion of processing. Please review acknowledgements carefully for accuracy. If you do not receive an acknowledgement within 14 days of submission, please call AAPD Registration and Housing Services Center at (800) 974-3084.
- All hotel room rates are subject to applicable state and local taxes in effect at the time of check-in (currently 10 percent).
- AAPD discounted room rates are applicable May 23 – May 28, 2018, subject to availability.
- Changes must be made on or before May 8, 2018, at 5 p.m. (PST) and online by accessing your registration/housing record or in writing via e-mail to [aapd@experient-inc.com](mailto:aapd@experient-inc.com).
- **All cancellations must be received a minimum of 72 hours prior to arrival in order to receive a refund of your deposit.** No refunds will be given for cancellations within 72 hours of arrival or for no shows.
- A portion of the room rate is used to offset the expense of registration and housing services.

Omni Shoreham  
Washington, D.C.

## Comprehensive Review of Pediatric Dentistry

Taught by expert clinicians, the Comprehensive Review Course will provide attendees an extensive review of pediatric dentistry. The topics discussed in this course include growth and development, assessment and prevention, oral pathology, care for special needs patients, restorative dentistry and materials, trauma, behavior management and pulp therapy. Whether you're preparing for the ABPD examinations or just need a refresher, this course is an in-depth summary for all pediatric dentists.

### Course Chair and Speaker

Amr Moursi, D.D.S., Ph.D.

### Speakers

Catherine Flaitz, D.D.S., M.S.  
Christina Carter, D.D.S., D.M.D.  
Timothy Wright, D.D.S., M.S.

### Who Should Attend

Any dentist treating children; whether you are preparing for the ABPD examinations or just need a refresher.

**CE Credits**  
22 Hours

## Safe and Effective Sedation for the Pediatric Dental Patient

Hyatt Centric Magnificent Mile  
Chicago, Illinois

**MARCH 8 – 10, 2018**

This course features the recognized leaders in the field, both in dental anesthesia as well as pediatric dentistry. You'll find didactic lectures, case studies, film clip sessions, panel discussions and hands-on breakouts with personalized attention. There will be dedicated forums to ask questions and talk about specific issues with course faculty, discuss techniques for effective communication with the patient and parent to address unusually challenging and complex situations. This course will offer opportunities to gain hands-on experience while learning airway techniques to rescue patients and will include breakout sessions with manikin practice with face masks, ambu bags and the insertion of nasal and oral airways; all in a personalized setting with real equipment and monitors.

### Course Chair and Speaker

Stephen Wilson, D.M.D., M.A.,  
Ph.D.

### Course Vice-Chair and Speaker

Bobby Thikkurissy, D.D.S., M.S.

### Speakers

Alan Milnes, D.D.S., Ph.D.  
Christine Quinn, D.D.S., M.S.

### Who Should Attend

Any dentist who sedates children in their office and wants to be taught by the leaders in the field who wrote the Current AAPD-AAP Guidelines.

**CE Hours**  
22 hours

## Early Orthodontic Treatment: Working Together for Excellent Results

**FEBRUARY 9 – 11, 2018**

Westin Kierland Resort & Spa  
Scottsdale, Arizona

The 2018 AAO/AAPD Winter Conference Planning Committee created a unique event featuring expert orthodontic and pediatric dental lectures.

Trauma will be addressed from both perspectives. Lectures will also address impaction, malformed first molars, dental transplants, decoronation, anterior crossbites, whitespot lesion prevention and treatment, autistic and cancer patients, parental expectations and risk management.

### Co-Chairs

Henry W. Fields, D.D.S., M.S., M.S.D.  
Scott Goodman, D.D.S., M.S.

### CE Credits

16 hours

John R. Christensen, D.D.S., M.S.  
Clarice Law, D.M.D., M.S.  
David B. Kennedy, B.D.S., M.S.D., FRC.D.

Northwestern Simulation Center  
Chicago, Illinois

**MARCH 11, 2018**

## Management of Pediatric Sedation Emergencies: Simulation

While no one ever expects an emergency situation to arise, attending this course will help you and your team be more prepared should the unexpected arise. This course is designed to simulate emergencies that may occur in a pediatric dental office. It will offer some didactic materials but will focus on team-driven assessment and responsiveness to situations that might arise during sedation of children for operative care. The course is intended for pediatric dentists who are currently using sedation techniques in their office and will allow for the participant to make quick assessments of patient status and simulate airway techniques, while managing real-time trending of physiological status with the goal of stabilizing the patient. You will be able to immediately implement training protocols for your practice that you've learned in the course.

### Course Chair and Speaker

Stephen Wilson, D.M.D., M.A.,  
Ph.D.

### Course Vice-Chair and Speaker

Bobby Thikkurissy, D.D.S., M.S.

### Speakers

Alan Milnes, D.D.S., Ph.D.  
Christine Quinn, D.D.S., M.S.

### Who Should Attend

Pediatric dentists who wish to sharpen and practice their cognitive skills and rescue techniques involving emergent pediatric sedation scenarios using SimMan technology.

### CE Hours

9\* hours

\*Two (2) hours required online learning in advance and seven (7) hours hands-on.

# AAPD/AOS Symposium Early Orthodontic Treatment: Excellent Techniques for Excellent Patient Results

Grand Hyatt Kauai Resort & Spa | Koloa, Hawaii  
**May 29th, 2018**

This program will provide a unique overview of how the pediatric dentist can provide early treatment orthodontics in a safe, simple, and beneficial manner. This symposium will be taught entirely by pediatric dentists who have over a century of cumulative orthodontic experience. Every aspect of treatment will be discussed, including diagnosis, minor tooth movement, crowded arches in the primary and transitional dentition, early Class II and III correction with an emphasis on facial esthetics. The pediatric dentist is the expert in facial growth and development, which uniquely positions them to learn and practice early treatment orthodontics.

**Register for the AAPD/AOS Symposium when you register for AAPD 2018!**

How the best perform

Healthy Smiles, Healthy Children: The Foundation of the American Academy of Pediatric Dentistry supports community-based initiatives that provide Dental Homes to children from families who cannot afford dental care.

## HSHC AAPD 2018 Schedule

### HSHC Dental Home Day 2018

**Wednesday, May 23**

*Waianae Coast Comprehensive Health Center*

On Wednesday, May 23, AAPD member volunteers will help provide care to underserved children in Hawaii.

*Sponsored by Sunstar Americas, Inc.*

SUNSTAR

### Healthy Smiles, Healthy Children Gala

**Saturday, May 26**

**7 – 10 PM**

*USS Battleship Missouri Memorial*

Join us on Saturday, May 26, from 7 – 10 p.m. at the USS Battleship Missouri Memorial in Pearl Harbor, Hawaii, for a celebration of our accomplishments and bid on exciting prizes.

All aboard the Mighty Mo! Welcome to the great USS Missouri, the battleship that saw the end of WWII in the Pacific. Guests will arrive tonight under the towering and patriotic presence of the Mighty Mo, the last commissioned battleship in the U.S. Navy.

Explore this incredible war ship including the Surrender Deck where Japan's representatives officially surrendered to General Douglas MacArthur in 1945. Go behind the scenes inside the captain's cabin before retiring to the fantail to enjoy cocktails and hors d'oeuvres. Docents offer tales of the Mighty Mo and share her integral role in key battles in WWII and beyond.

Tonight's creative cuisine, inspired by the WWII era, is designed and delivered by the one and only Chef Chai, one of Honolulu's best-known and most beloved celebrity chefs.

#### **Bid on a "Life Experience" auction item.**

HSHC Donors at the Leader's Circle level and above will receive two complimentary tickets. Due to space constraints, limited tickets may be available for purchase at \$300 per person.

For information or to purchase tickets, contact Michelle Hidalgo at (312) 337-2169 or [mhidalgo@aapd.org](mailto:mhidalgo@aapd.org).

# Student loan refinancing for AAPD members

SoFi saves dentist borrowers an average of  
\$870 a month<sup>1</sup>

Apply through [SoFi.com/AAPD](https://sofi.com/AAPD) to get a **\$400 welcome bonus<sup>2</sup>** when you refinance your student loans.

Terms and Conditions Apply. SOFI RESERVES THE RIGHT TO MODIFY OR DISCONTINUE PRODUCTS AND BENEFITS AT ANY TIME WITHOUT NOTICE. See [sofi.com/legal](https://sofi.com/legal) for a complete list of terms and conditions. SoFi loans are originated by SoFi Lending Corp (dba SoFi) California Finance Lender #6054612. NMLS #1121636. <sup>1</sup>Monthly savings calculation is based on all SoFi members with a dental school degree who refinanced their student loans between 7/1/15 and 6/30/16. The calculation is derived by averaging the monthly savings of SoFi members with a dental school degree, which is calculated by taking the monthly student loan payments prior to refinancing minus the monthly student loan payments after refinancing with SoFi. SoFi's monthly savings methodology for student loan refinancing assumes 1) members' interest rates do not change over time (projections for variable rates are static at the time of the refinancing and do not reflect actual movement of rates in the future) 2) members make all payments on time. SoFi's monthly savings methodology for student loan refinancing excludes refinancings in which 1) members elect a SoFi loan with a shorter term than their prior student loan term(s) 2) the term length of the SoFi member's prior student loan(s) was shorter than 5 years or longer than 25 years 3) the SoFi member did not provide correct or complete information regarding his or her outstanding balance, loan type, APR, or current monthly payment. SoFi excludes the above refinancings in an effort to maximize transparency on how we calculate our monthly savings amount and to minimize the risk of member data error skewing the monthly savings amount. <sup>2</sup>Payment will be issued electronically once you become a SoFi borrower; you have submitted a completed application with documents and your loan has been disbursed. Offer good for new customers only.

## SEEKING PEDIATRIC DENTISTS

**CALIFORNIA—FRESNO—CLOVES.** My Kid's Dentist has an opening for a pediatric dentist to work in our Fresno and Clovis offices. Both offices are located in excellent communities with numerous young families in the area. Fresno's affordable housing costs combined with superior school districts and neighboring national landmarks including Yosemite National Park and Sequoia National Park truly make the Fresno area a great place for a pediatric dentist to work and thrive. As a pediatric dentist practicing at My Kid's Dentist you'll have the opportunity to focus 100% of your time on pediatric dentistry and patient care; likely the reasons you chose pediatric dentistry as a profession rather than dealing with the practice management side of things. Pediatric dentists are supported with trained assistants along with industry-leading tools, technology and safety equipment. My Kid's Dentist accepts nearly all PPO and HMO plans and we only partner with residency-trained pediatric dentists. Compensation includes a guaranteed daily draw or a percent of adjusted production along with comprehensive benefits. If patient care and the relationships you create is your passion, then practicing at My Kid's Dentist is likely just the place you are looking for. Contact Ed at 949-842-7936 or e-mail him at [loaname@pacden.com](mailto:loaname@pacden.com). Requirements: Dental degree from an accredited university and an active state dental board license. D.D.S./D.M.D. Oral Sedation license is required.

**CALIFORNIA—NAPA.** We are private practice in a beautiful NAPA, CA we are looking for a full-time pediatric dentist to work 4-5 days a week. We accept very few insurances and practice has a strong foundation of the pediatric patient base. Benefits offered: Monday to Thursday 8.00 AM to 5.00 PM, daily minimum guarantee depends upon experience level, percentage of Productions or daily guarantee whichever is higher, medical benefits. We are looking for someone who has a great personality and a team player. Practice has been established for 25 years in the community with great reputation. Future Partnership opportunity available as well. This opportunity is hard to find while getting the opportunity to work in one of the most highly rated dental practices in Napa. Applicants must be board eligible or certified. Please send your resume and inquires to [devandalla@gmail.com](mailto:devandalla@gmail.com).

**CONNECTICUT—FAIRFIELD.** Well established, growing multiple office Pediatric and Orthodontic practice in Fairfield County is seeking a Full Time Board eligible Pediatric Dental Associate. This is a great growth opportunity for a personable, caring Pediatric Dentist. Must have a certification in Pediatric Dentistry and an Oral Sedation License. Our high tech private practice renders quality care in a comfortable environment and caters to children with special needs. Compensation includes: percentage of collections, malpractice insurance and 401K plan contribution. Please send your resume and inquires to [allison@commerceparkdental.com](mailto:allison@commerceparkdental.com).

**CONNECTICUT—STAMFORD.** If you are an outstanding caring person, a terrific dentist and want to work where you are truly valued then we want to talk to you today. Our mission is to create a great dental future for our kids because 80% of adults don't like to go to the dentist and as a result they have less than optimal dental health and most of that is from poor childhood experiences. Dental Care Kids is a private fee for service pediatric dental practice. Great opportunity to join our team of pediatric dentists, hygienists and great staff in a state-of-the-art office. We are open 7 days a week so days and hours are flexible. Position is open now. Office has state-of-art equipment. Great Team. Great new and recall patient flow. Please reply to [JerrySimon@sprynet.com](mailto:JerrySimon@sprynet.com) to arrange an interview must be either board certified or board eligible. Please send e-mails and inquires to [jerrysimon@sprynet.com](mailto:jerrysimon@sprynet.com).

**FLORIDA—BONITA SPRINGS—CAPE CORAL—PORT CHARLOTTE.** Extraordinary opportunity for a Pediatric Dentist to join Southwest Florida's premier Pediatric Dentistry practices! In addition to routine dental care, our offices offer a full spectrum of in-office sedations as well as an opportunity to provide dental care in a hospital setting. We are looking for someone compatible who is personable, enthusiastic, caring and loves what they do. Currently, we're seeking an associate on a part or full-time basis with partnership options for the right person. Must have completed Pediatric Dentistry Residency and licensed to practice in Florida. Board eligible or Board certified would be great! For more information on our practice, please feel free to check out our website at [www.swfl-pediatricdentistry.com](http://www.swfl-pediatricdentistry.com). If interested or would like more information please e-mail C.V. to [doctors@swfl-pediatricdentistry.com](mailto:doctors@swfl-pediatricdentistry.com)

**FLORIDA—CLEARWATER—TAMPA BAY.** Outstanding opportunity for a Pediatric Dentist that is outgoing and driven for success. We are a private group practice of Orthodontists and Pediatric dentists looking for the right person to join our expanding group practice. We have a full time associate position available with a path for partnership. We are located in the beautiful Tampa Bay area with six locations throughout Tampa and Pinellas County. Must be committed to excellence in patient care and service, and working in an office culture of fun and positive enthusiasm. We are passionate about serving our community and creating the best place to work as a staff member and doctor. Our new associate will earn a minimum of \$200,000.00 base on 200 days/year, or 30% of production, whichever is greater. This position provides the opportunity to practice all aspects of care including oral sedation, in-house pediatric anesthesiologist for IV sedation, and hospital dentistry. By the end of the first year, the right doctor(s) should be earning in excess of \$300,000.00. For more information on this opportunity, please contact [dr.em@bluwavedentalgroup.com](mailto:dr.em@bluwavedentalgroup.com). In addition, we offer full benefits, 401K, license fees and insurance. Must have a Specialty License in Pediatric Dentistry from an accredited institution. Please e-mail resumes and inquires to [dr.em@bluwavedentalgroup.com](mailto:dr.em@bluwavedentalgroup.com).

**FLORIDA—WINTER PARK.** Pediatric Dental Group is growing and we are looking to add a full-time Pediatric Dentist to our team. We are a private group owned and operated by 2 Board Certified Pediatric Dentists, and have 3 locations in Central Florida. All of our locations are modern with digital records and x-rays. Services include in-office sedation and general anesthesia at several local hospitals. We offer a competitive compensation package, and an environment tailored to foster professional growth. New grads welcome, hospital based residency graduates preferred. Our pediatric dentists are happy to help ease your transition from residency into practice. Come live in one of the best cities to live in Florida! Please visit [www.pediatricdentalgroupflorida.com](http://www.pediatricdentalgroupflorida.com) to learn more about our practice. Interested candidates please contact Jocelyn at 321-720-2402 or [Jocelyn.Espejo@pdgorlando.com](mailto:Jocelyn.Espejo@pdgorlando.com) to learn more about the opportunity. Requirements: pediatric residency, hospital based residency preferred

**GEORGIA—SAVANNAH.** We are looking for a Dentist with a strong work ethic and passion for treating the underserved to add to our growing practice. We treat children up to age 21 so a desire to work with kids is a must. We offer a work environment where work-life balance is encouraged. In addition, we offer a competitive starting salary, excellent benefits package, holiday pay, PTO, and much more! You may even be eligible for relocation assistance and a sign-on/retention bonus! Whether you are looking for your first job as a Dentist or an opportunity to advance your career, Great Plains Dental may have the opportunity you have been looking for. If you are ready to join a team of professionals that love what they do, we want to hear from you! Please e-mail resumes and inquires to [jobs@fqminc.com](mailto:jobs@fqminc.com).

**ILLINOIS—OAK BROOK.** Associate part-time (1-2 days per week) position, western suburbs of Chicago with office locations in Oak Brook and St. Charles. Diverse population that seeks optimal care and full range of services including interceptive and minor orthodontics, in-office sedation, hospital and surgical center care in well-established and still growing practice. Outstanding associate opportunity; optimal for individual who teaches part time. Experience and board certification highly desirable. Potential for individual who might at some point in near future consider full-time 4 day per week practice including Saturdays and seek practice ownership. Hospital privileges can be sought at Lurie Children's, Delnor/Northwestern Hospital. Interested individuals should forward resume and cover letter of interest and goals to [jjpcenterprises@gmail.com](mailto:jjpcenterprises@gmail.com).

**ILLINOIS—GURNEE.** Seeking a fun, energetic and compassionate Pediatric dentist, starting with 2 days a week. Must be an Illinois licensed Pediatric Dentist with proper training and permit with sedation. Illinois licensed Pediatric Dentist. Please e-mail resumes and inquires to [Clee5250@aol.com](mailto:Clee5250@aol.com).

**ILLINOIS—NAPERVILLE.** Immediate opening for Pediatric D.D.S. in expanding multi-specialty practice. High end technology, two beautiful locations, southwest suburbs, part-time hours available. Looking to add an amazing team. Please send resumes to [recruiter@idm630.com](mailto:recruiter@idm630.com)

**INDIANA—TERRE HAUTE.** Associate to partnership opportunity. Privately owned practice with no corporate influence. Our well established and respected practice has been in business for 26 years. We are the only pediatric dentists in the community and are currently settling into our new, award winning facility which houses two pediatric dentists and one full time orthodontist, all under one roof. With a devoted marketing department, our practice averages over 200 new patients per month. Our current associate from New York has been with us for over two years and has had significant success but is electing to return home for marriage and family. All systems, expanded duties staff and most importantly, the patients, are in place for a motivated pediatric dentist to have success in a highly patient centric office. This position allows the associate to practice all facets of pediatric dentistry, while working side by side with the mentoring owner-dentist. The associate will also spend routine scheduled or time (over 100 cases last year). The compensation package includes a guaranteed salary with incentive and bonus systems in place to maximize income. A competitive benefits package, which includes sign on bonus and relocation allowance, is definitely worth investigating. The community has great neighborhoods, schools, universities, trails and is very family friendly. The cost of living is extremely affordable and major metropolitan areas are within a short drive. Website [www.dentistryjust4kids.com](http://www.dentistryjust4kids.com), e-mail resumes and inquires to [spilipovich@dj4k.net](mailto:spilipovich@dj4k.net).

**MICHIGAN —GRAND RAPIDS.** Our state-of-the-art private pediatric practice is seeking a pediatric dentist with great communication and leadership skills to join our growing team. Our beautiful facility is equipped with the latest technology to help with your patient education and improved case acceptance, making it easy to provide high quality dental care. Our practice offers oral conscious sedation, IV sedation with an anesthesia team and general anesthesia in a hospital setting. This is a unique opportunity to be an integral part of an amazing office where you will be able to expand your knowledge and work with a future oriented and fun team that handles all of the administration of the practice which means more family time for you! Grand Rapids is a growth center in Michigan and offers a lot of great experience opportunities for both singles and families! Beautiful rivers, lakes and trails, a robust plethora of restaurant choices if you're a foodie, an annual art festival that attracts hundreds of thousands of people and only a short drive to the beautiful beaches of Lake Michigan, Grand Rapids has it all. If interested, please e-mail [growingsmilesdds@gmail.com](mailto:growingsmilesdds@gmail.com).

**NEW JERSEY—CHERRY—HILL TURNERSVILLE.** Looking for an "enthusiastic," "passionate about your work," "wanting to make a difference in the world," "love Pediatric Dentistry," TEAM player to join our practice in South Jersey. Located in a great community, with excellent schools, easy access to Philadelphia, the Jersey Shore, sports teams and just about everything you could ask for. We are the practice that you've always wanted to be a part of. Guaranteed daily minimum salary, plus excellent benefits. Please email resumes and inquires to [Dfspadmin@dentistryforspecialpeople.com](mailto:Dfspadmin@dentistryforspecialpeople.com).

**NEW YORK—NEWBURGH—LOWER HUDSON VALLEY.** We are seeking a compassionate pediatric dentist to join our successful, well established, quality oriented multi-specialty private practice. FFS and PPO, no Medicaid. Excellent opportunity with partnership potential for a motivated individual. Enjoy going to work. Family oriented, friendly office with competitive compensation. We are located in the lower Hudson Valley convenient to NYC. The position is currently 2 - 3 days per week but could increase to full-time in the future. Benefits including 401K and health insurance. Will consider new graduates. Please reply in confidence to [Braceman@Optonline.net](mailto:Braceman@Optonline.net)

**NEW YORK —NEW YORK.** Well established Pediatric/Orthodontic Practice for sale. Five chair office located across from Central Park with private street entrance. Fully equipped with nitrous oxide, digital radiographs, and completely networked. Affiliated with major teaching hospital, with staff appointment possible. Office space is available for short term lease or purchase. Doctor and staff will stay on for negotiated time. 100% fee for service. Please e-mail resumes and inquires to [yettamattalec@aol.com](mailto:yettamattalec@aol.com).

**NORTH CAROLINA—CHARLOTTE.** Fulfilling opportunity for an ambitious pediatric dentist to join a modern & growing Charlotte area practice. Very open to associates interested in future partnership opportunity - if desired. Minimum guaranteed rate plus a generous percentage of collections, including benefits and time off. Full or part time available. Must have a certificate of Pediatric Dentistry. Please send resumes to [Ethan@AKAsmiles.com](mailto:Ethan@AKAsmiles.com).

**NORTH CAROLINA—GREENVILLE.** Multi-doctor Pediatric-Orthodontic practice in Eastern NC needs a Pediatric Dentist ASAP. In a university town with a dental and medical school, the location is choice. An hour's drive from beautiful beaches, surrounded by excellent hunting and fishing spots, within a few hours drive of the beautiful Blue Ridge Mountains. Wonderful shopping, culture and art centers, outstanding dining are all part of the scene. Practice is state of the art with excellent delivery and management systems. A Surgicenter is a block away. Please e-mail your C.V. to [info@copd.org](mailto:info@copd.org).

**OHIO—NORTHEASTERN.** Well established pediatric dental practice is seeking an associate. Buy in opportunity is available. State of the art facility in a growing suburb of Cleveland. Care provided for infants, children, adolescents, and special patients. Hospital dentistry, part-time opportunity leading to full-time. Competitive compensation package. Please e-mail resumes and inquires to [lisdslc@yahoo.com](mailto:lisdslc@yahoo.com)

**ONTARIO—TORONTO.** Looking for a well-rounded Pediatric Dentist for established and growing pediatric dental clinics, in and around Toronto, Canada. Offering exceptional first year earnings, additional signing bonus and moving expenses may be available. If you are a recent graduate or established doctor we want to hear from you! If you are looking for a modern clinic with an extraordinary culture that values patient care, and having fun at work, then please forward on your resume and cover letter to [info.dentistry4kids@gmail.com](mailto:info.dentistry4kids@gmail.com).

**OREGON—GRANTS PASS.** Your opportunity to establish your career with a reputable practice known for its integrity starts here! Dr. Waschak Pediatric Dentistry and Orthodontics is a fast growing practice seeking a qualified energetic pediatric dentist who is committed to excellence in patient care to join our professional and respected team. Our expansion includes a new state of the art facility designed specifically to serve our community with the finest equipment in a comfortable and efficient environment. We provide oral sedation, operating room and in-office anesthesia to accommodate the wide range of needs for our patients. We value continuing education in excellent dentistry and strive daily to provide an excellent patient experience. We work with a nationwide consultant to bring our professional best to our community. We provide and encourage ample opportunities for professional, financial and personal growth. We are committed to the success of our business by establishing and never ceasing until we reach our goals for patient satisfaction, productivity, cohesion and employee/ employer satisfaction. The Pediatric Dentist is responsible for providing compassionate, high-quality dental care to our patients. Provide leadership and direction to all team members in all areas of pediatric patient treatment. Diagnose dental conditions and plan oral health care in consultation with patients and parents. Ensure treatment plans are reviewed with each patient/parent and informed consent is granted for treatments rendered. Provide great customer service by offering same day care when possible and ensuring parent/patient satisfaction. Educate patients and parents about improving and maintaining oral health care. Appropriately administer dental anesthesia and nitrous oxide analgesia to limit the amount of patient discomfort experienced by patients during procedures. Obtain diagnostic pre-operative radiographs for every procedure. Local Anesthesia must be limited appropriately dependent on patient weight. Effectively and safely administer behavior management techniques to enable delivery of dental care especially for uncooperative children. Develop treatment plans for patients consistent with the American Academy of Pediatric Dentistry Guidelines. Adhere to quality assurance training and patient experience training. Ensure training and development of staff by identifying training needs and establishing initiatives to meet company/individual objectives. Conduct behavior in a manner that is professional and courteous to all patients, parents, and office staff at all times. Explore opportunities for hospital or sedation services. Adhere to all federal and government regulations, including the state dental board rules and regulations, HIPPA and OSHA regulations. If you are interested in joining our team of caring professionals, like to work with children, and appreciate opportunities for personal advancement send your resume to [Hirepeddds@gmail.com](mailto:Hirepeddds@gmail.com)

**PENNSYLVANIA—COLLEGEVILLE.** We are looking for an awesome full-time pediatric dental associate who has excellent communication and clinical skills. You will have the benefit of a full-time career position while having the opportunity to grow both personally and professionally. You will be working with a unique office, team and owner-Pediatric Dentist that work together to make constant improvements in our work and personal lives. Four times a year we have speakers come to our office to educate us about how to provide the best experience for our patients and parents, as well as improving our interpersonal relationships with friends and loved ones. You will have defined times where you will have the opportunity to have one on one mentoring

with the practice's owner-Pediatric Dentist. You will be given a generous continuing education stipend so you can learn about new and emerging trends and procedures in our specialty. Your medical insurance premiums, malpractice premiums, AAPD, and ADA dues will be fully provided by us. You will be eligible for our student loan payback program, which can pay up to \$75,000 of your student loans. You will have the opportunity to go on a mission trip, fully funded by us for you, after two years of working with us. You will have a four-day workweek, but earn the same as you would if working a five-day workweek. Our practice currently is not open on Saturdays or past 6 PM during the week. You will be on call no more than six weeks a year. We believe that your life outside of work is as important as your professional life. We want you to pursue your interests and hobbies you have outside of pediatric dentistry or have the time to teach at the two local dental schools or three local Pediatric Dental Residency Programs. You will have the opportunity to learn about and perform laser dentistry as well as benefiting from a practice that utilizes other state of the art technologies. You will work with an incredible team of well-educated and motivated dental assistants, dental hygienists, administrative staff and pediatric dentist whose goals are to help you and each other provide the highest level of pediatric dental care in a fun, and gentle environment. You will have the opportunity to provide treatment under general anesthesia in any of the three local children's hospitals or their surgical centers. Our Mission is to provide the highest quality pediatric dental care in a fun and comfortable environment for our patients and their families. We will continue to be the leader in the field of pediatric dentistry by delivering the highest level of care and service before, during and after our patients' appointment. Our Core Values include: Positive Attitude, Growth Oriented, Team Player, Greater Good, Caring, and Compassionate, Open to Change, Live Up to Expectations, Honesty, Integrity, self-starter and Fun. Our practice has been open for 19 years and is very well respected in the area. We are strictly a FFS practice, but do treat select in-need patient's pro-bono. We do treat many special needs patients and are proud that with few exceptions that they are able to tolerate treatment while they are physically and emotionally comfortable without sedation or GA in our office. We are honored to treat the children, grandchildren, nieces, nephews and cousins of local dentists and pediatricians. We have great base of local referring pediatricians and general dentists, and see many referrals from our current families. Each year we even get a few referrals from some area pediatric dentists. We treat all of our patients as if they were our own children, and guarantee the restorative treatment we provide. You must have graduated from an accredited dental school, graduated from an accredited pediatric dental residency, and be licensed to practice in Pennsylvania. If you are looking and ready to work in a premier, high quality, fun and friendly private pediatric dental practice, and you are a great communicator, a superior clinician, and team player who wants to work in a practice where you get to know your patients and their families, and desire a career not a job, send your cover letter and C.V. today. Requirements: Graduate of an accredited U.S. Dental School, graduate of an accredited U.S. Pediatric Dental Residency, licensed to practice in Pennsylvania. Please e-mail resumes and inquires to [eric.hans@comcast.net](mailto:eric.hans@comcast.net).

**PENNSYLVANIA—PHILADELPHIA.** This is the opportunity you've been waiting for. Great owners, great associates, great staff, great kids, great office the only thing missing is you! Amazing opportunity for motivated pediatric dentists to join our 7 location pediatric practice in the Philadelphia/suburban area. Work with our large group of superb doctors and staff to provide high-quality care for our thousands of wonderful kids! Also, provide infant and special needs care under general anesthesia in our own private Ambulatory Surgical Center – the first in the nation dedicated exclusively to dental procedures. Excellent salary and benefits available. We're about to expand again, so please send your letter of interest and C.V. to [drbresler@hotmail.com](mailto:drbresler@hotmail.com). Website: [www.Cavitybusters.com](http://www.Cavitybusters.com).

**SOUTH CAROLINA—COLUMBIA.** Full time position available immediately for a pediatric dentist. Excellent opportunity to join a well-respected practice that is consistently booked out several months. Need an associate to replace a retiring dentist immediately. This position will be very busy immediately. Income potential is great. This office has all the latest technology- paperless, digital x-rays, etc. OR cases are done at nearby hospital and surgery center. Great relationships with all the Pediatricians in the area. This is not a corporation so there will not be anybody looking over your shoulder. This is a full time position with a very competitive compensation package. Benefits include Health Insurance, 401K retirement, paid Malpractice Insurance and an annual CE/ Professional Membership Stipend (\$1200). We also offer a relocation stipend (\$2500). Columbia is a very welcoming city that has great weather that allows for outdoor activities year round. There is a large beautiful lake close by which is great for boating, fishing and water sports. Columbia has a low cost of living, affordable housing and great schools and colleges nearby. The beautiful beaches of South Carolina and the Blue Ridge Mountains are just a short drive away. Ideally at least 1 year experience in private practice is preferred but not required. Please e-mail resumes and inquires to [ellis3dmd@gmail.com](mailto:ellis3dmd@gmail.com).

**TEXAS—CORPUS CHRISTI.** Our fun and energetic office is looking for a pediatric dentist to work part-time or full-time in our upscale and state of the art new office. Our office is located in beautiful Corpus Christi where everything is a short drive away. Beaches, fishing, surfing, bird watching, shopping, a rich blend of culture and outdoor life without the big city noise and traffic. Experienced dentists and new grads are welcome to apply! Please e-mail resumes and inquires to [rojascandelas@yahoo.com](mailto:rojascandelas@yahoo.com).

**TEXAS—KILLEEN.** Carus Dental provides comprehensive oral healthcare services to patients in the Austin and Houston Texas areas. Our doctor owned multispecialty group practice includes 30+ locations and a team of more than 40 doctors. We are interested in speaking with pediatric dentists to join our team in our Killeen practice, which is south of Austin. The clinical team at Carus uses the latest technologies combined with proven methodologies to deliver a comprehensive range of quality services in a comfortable environment. Dental professionals are given the support and resources necessary for success, including mentor programs, leadership

opportunities, continuing education allowances and even ownership potential. With the resources and collegial support of our group, our clinical professionals are well positioned to enjoy a lasting, successful career in dentistry. Carus Dental is proud to be one of a select few dental groups nationwide to be accredited by the Accreditation Association for Ambulatory Health Care (AAAHC). This accreditation means that AAAHC's independent team of health care professionals has found that we meet their rigorous, nationally-recognized standards for health care services. Carus Dental is proud to provide a competitive compensation package, including comprehensive health benefits (Health, Vision, Dental), Life Insurance, Long Term Disability, Professional Liability Insurance, a 401 (k) program with employer matching, and established mentor programs and leadership opportunities. D.D.S./D.M.D., Certificate in Pediatric Dentistry, TX State Dental License or Eligibility. Please e-mail resumes and inquires to [kateanderson@amdpi.com](mailto:kateanderson@amdpi.com).

## Stay N Place® Airway Positioners

*Our Airway Positioners Help When "Chin Up" is a Challenge.*

3" high at the chest area, 19" long and 10.5" wide

Maintaining proper positioning for procedures can be challenging. Our **Stay N Place® Airway Positioners** support the upper torso, making "chin up" easier. The **Stay N Place® Airway Positioner (code: SP-AP VIN)** above, has two head and neck cradles and a wedge-shaped pillow to lift the chest area. These vinyl-covered pillows can be repositioned to accommodate a range of patients. It can be used with or without the head strap. Available in dark teal or cream vinyl.

2.5" high at the chest area, 18" long and 10" wide

The foam **Stay N Place® Airway Positioner (code: SP-AP FM)** provides consistent support (less compressibility), which is important for sedation as well as routine operative dentistry. The surface is smooth to the touch, hygienic and is easily cleaned.

**On our newly designed website, see the category "Chin up is a Challenge"!**
